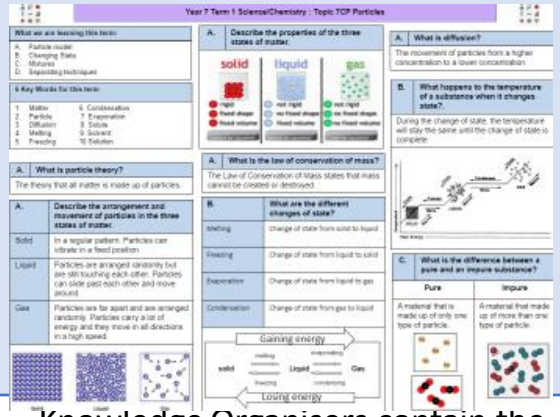
Using your Knowledge Organiser and Quizzable Knowledge Organiser

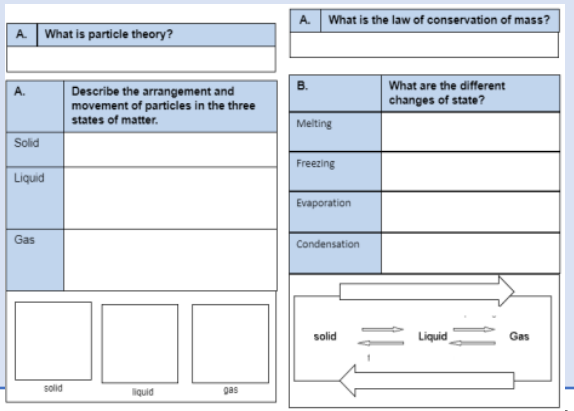
Knowledge Organisers



Knowledge Organisers contain the essential knowledge that you MUST know in order to be successful this year and in all subsequent years.

They will help you learn, revise and retain what you have learnt in lessons in order to move the knowledge from your short-term memory to long-term memory.

Quizzable Knowledge Organisers



These are designed to help you quiz yourself on the essential Knowledge.

Use them to test yourself or get someone else to test you, until you are confident you can recall the information from memory.

Top Tip

Don't write on your Quizzable Knowledge Organisers! Quiz yourself by writing the missing words in your prep book. That way you can quiz yourself again and again!

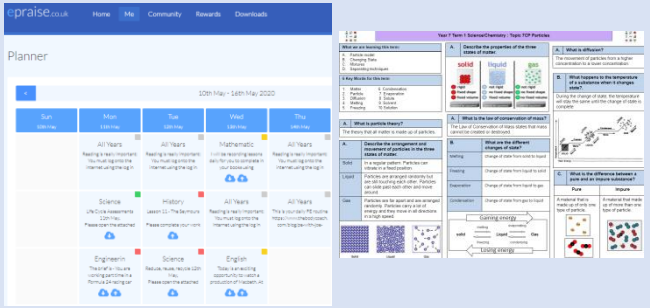
Expectations for Prep and for using your Knowledge Organisers

1. Complete all prep work set in your subject prep book.
2. Bring your prep book to every lesson and ensure that you have completed all work by the deadline.
3. Take pride in your prep book – keep it neat and tidy.
4. Present work in your prep book to the same standard you are expected to do in class.
5. Ensure that your use of SPAG is accurate.
6. Write in blue or black pen and sketch in pencil.
7. Ensure every piece of work has a title and date.
8. Use a ruler for straight lines.
9. If you are unsure about the prep, speak to your teacher.
10. Review your prep work in green pen using the mark scheme.

How do I complete Knowledge Organiser Prep?

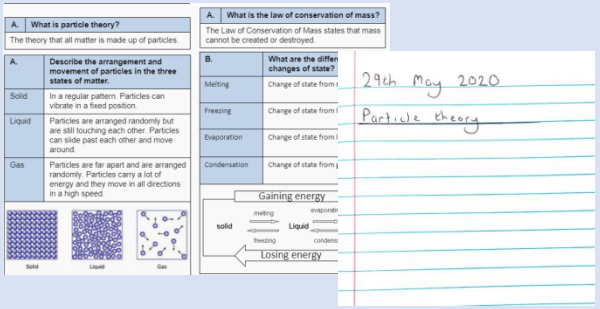
Step 1

Check Epraise and identify what words /definitions/facts you have been asked to learn. Find the Knowledge Organiser you need to use.



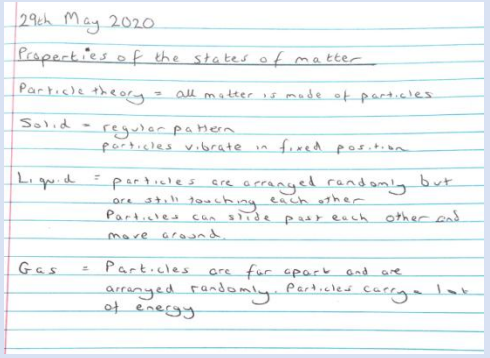
Step 2

Write today's date and the title from your Knowledge Organiser in your Prep Book.



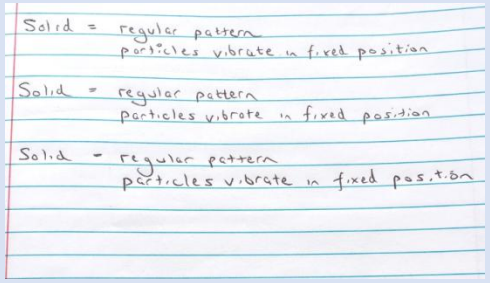
Step 3

Write out the keywords/definitions/facts from your Knowledge Organiser in FULL.



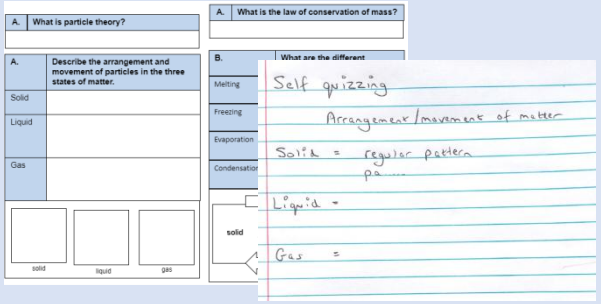
Step 4

Read the keywords/definitions/facts out loud to yourself again and again and write the keywords/definitions/facts at least 3 times.



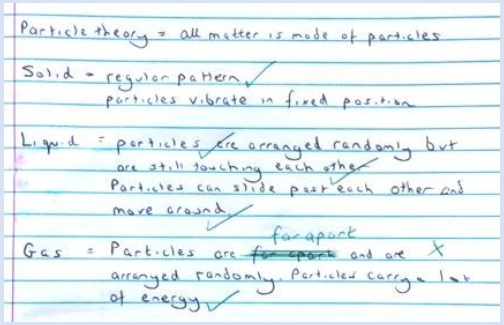
Step 5

Open your quizzable Knowledge Organiser. Write the missing words from your quizzable Knowledge organiser in your prep book.



Step 6

Check your answers using your Knowledge Organiser. Repeat Steps 3 to 5 with any questions you got wrong until you are confident.



Make sure you bring in your completed Prep notes to demonstrate that you have completed your prep.

Year 7 English: Sets 2-5

Plot Summary

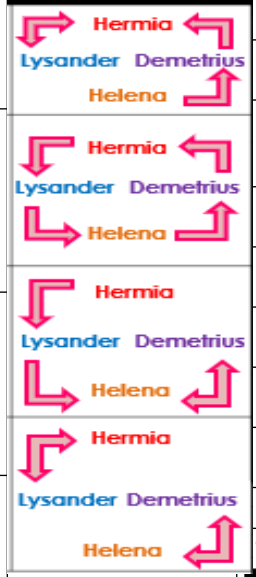
Act 1: **Hermia** and **Lysander** love each other but are not allowed to marry so decide to run away to the forest to get married in secret. **Demetrius** wants to marry **Hermia**. **Helena** loves **Demetrius**. They follow **Hermia** and **Lysander** into the forest.

Act 2: In the forest, Oberon and Titania are arguing. Oberon sees **Demetrius** and **Helena** arguing and commands Puck to use the potion on the Athenian man to make him fall in love with **Helena**. However, the first Athenian man Puck sees is **Lysander**, so he puts the love potion on him. **Lysander** falls madly in love with **Helena**.

Act 3: Puck sees Bottom in the forest and transformed his head into a donkey's head. He puts the love potion on Titania, who falls in love with Bottom. Puck puts the love potion on **Demetrius** so that he falls in love with **Helena**. As a result, both men love **Helena** so there is chaos. Puck eventually drops a herb in **Lysander's** eyes to put him back to normal.

Acts 4 and 5: Oberon finds Titania and Bottom and decides that he has had enough fun. Puck drops a herb in her eyes, she wakes and leaves with Oberon. The lovers return to Athens where Bottom and the other actors perform their play at the wedding of the three happy couples: Theseus and Hippolyta, **Lysander** and **Hermia** and **Demetrius** and **Helena**.

Who loves Whom



Background Information of *AMND*

A Midsummer Night's Dream (AMND) was written by William Shakespeare in 1595.

Shakespeare wrote lots of light-hearted funny plays: Comedy's.

Shakespeare went to a grammar school where he was taught Ancient Greek.

Shakespeare was a poet and a play write. He wrote multiple plays that were performed in the Globe theatre in London.

His first theatre group was called Lord Chamberlain's Men, later changed to the King's Men (1603) under the patronage of King James I.

The play is set in Ancient Greece and follows the rules of a comedy from Ancient Greece.

When the play was written, Elizabeth 1st was Queen. The play is written in the Elizabethan era.

Both wealthy and poorer Elizabethan people went to the Globe to watch plays.

Cupid is the ancient god of love. He is usually presented as a baby whose arrows make people fall in love.

Vocabulary: Key words

severe – very strict or harsh

conflict – a serious disagreement, battle or struggle between two sides or ideas.

unrequited love – If a person loves someone who doesn't love them back, the person's love is unrequited

to mock – To mock someone is to make fun of them

chaos – a situation where there is no order and everyone is confused

captivate - attract and hold the interest and attention of someone

infatuated - intense but short-lived passion for someone else

patriarchy – a society in which power lies with men

to resolve – to solve a problem or difficulty

forsaken - abandoned or deserted

Terminology: Key Words

soliloquy - a speech in a play that the character speaks to himself or herself or to the audience, rather than to the other characters

comedy – a type of play that is comical and ends with a happy ending.

play - a play is a piece of writing which is performed in the theatre.

stage directions - Instructions written into the script of a play

connotations – linked idea, meaning or feeling

epitomises – a perfect example of

Characters in AMND

Athenians

Theseus: *The Duke of Athens and Hippolyta's fiancé (later husband).*
Hippolyta: *The Queen of the Amazons and Theseus's fiancé (later wife).*
Egeus: *Hermia's father.*
Philostrate: *Master of Revels for Theseus; in charge of arranging entertainments for the court.*

The Lovers

Hermia: *the daughter of Egeus and good friend of Helena.*
Helena: *in love with Demetrius and a good friend of Hermia.*
Lysander: *an Athenian nobleman who is in love with Hermia.*
Demetrius: *an Athenian nobleman who also loves Hermia but has wooed Helena in the past.*

Fairies (Mythical characters)

Titania: *The Queen of the Fairies and Oberon's wife.*
Oberon: *The King of the Fairies and Titania's husband.*
Puck: *Oberon's mischievous servant.*
Peasebody/Cobweb/Mustard seed/Moth: *Titania's fairies.*

The workmen/theatre performers

Bottom: *a weaver who believes he is a great actor.*
Quince: *a carpenter; writer and director of the play put on by his fellow workmen.*
Snug/ Snout/Flute/Starveling: *tradesmen and players in the theatre company performing the play 'Pyramus and Thisbe'.*

The Love Potion

The love potion is made from a flower in the forest. The flower is magical because Cupid hit it with his arrow when he was aiming at a young girl. When the potion is put on characters' eyes, they fall in love with the first person they see. It is very powerful.

'A Midsummer Night's Dream': T Knowledge Organiser

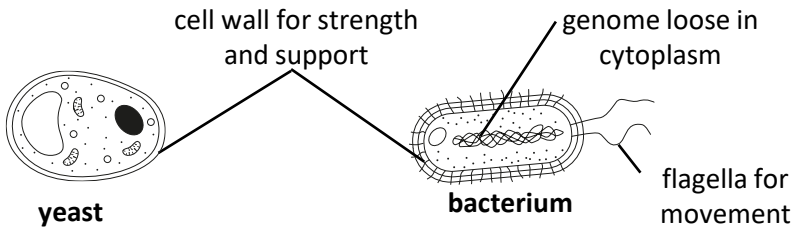
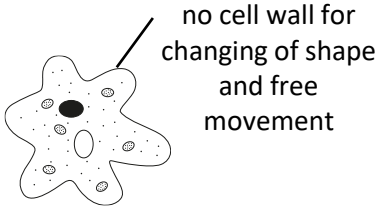
7.05 Organ systems

Unicellular organisms are made of only one cell (e.g. bacteria, amoeba and yeast).

- They can carry out the 7 life processes of living organisms, all in one cell.
- Unicellular organisms share common organelles, but they also have adaptations.
- Unicellular organisms can be helpful or harmful.
- Unicellular organisms use diffusion to exchange substances.





Multicellular organisms are made of many cells (e.g. plants and humans).

- They are larger and more complex than unicellular organisms.
- They cannot rely on diffusion alone for exchanging substances.
- Multicellular organisms depend on tissues, organs, and organ systems working together to exchange and transport substances to cells of the body, to keep cells alive.
- Organ systems in humans include the **gas exchange system**, **digestive system**, **circulatory system**, **skeletal system** and **muscular system**.

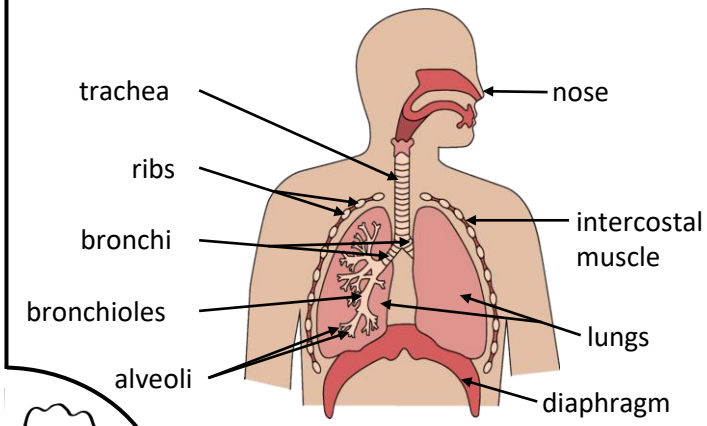
- Used in baking
- Used to make alcoholic drinks

- Supports digestion
- Used to make cheese and yoghurt

Gas exchange system

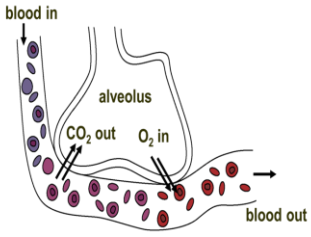
Air is a mixture of gases, including oxygen and carbon dioxide.

The human gas exchange system allows for the exchange of oxygen and carbon dioxide between an organism and its environment. Inhaled air contains more oxygen than exhaled air. Exhaled air contains more carbon dioxide than inhaled air. Oxygen moves from the alveoli into cells and then into the blood vessels (capillaries), while carbon dioxide moves in the opposite direction via diffusion.



Alveoli are adapted for efficient diffusion:

- **good blood supply** maintains the concentration difference
- **large surface area** for faster rate of diffusion
- **thin walls** (one cell thick) to provide a shorter diffusion pathway



Breathing involves changes in pressure and volume inside the chest, helped by the movement of intercostal muscles and diaphragm, which causes the movement of the ribcage.

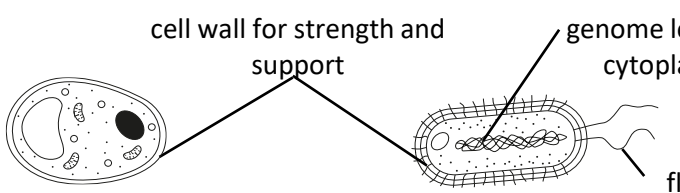
Vital capacity is the maximum volume of air exhaled after inhaling fully and can be used to estimate lung volume.

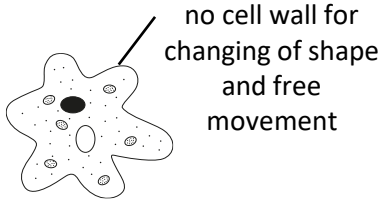
	Inhalation	Exhalation
Intercostal muscles	contract	relax
Ribcage	pulled up and out	released down and in
Diaphragm	contracts and moves downwards	relaxes and moves upwards
Volume in the chest	increases	decreases
Pressure in the chest	decreases	increases
Movement of air	into the lungs	out of the lungs

Organ systems

_____ organisms are made of only one cell (e.g. bacteria, amoeba and yeast).

- They can carry out the 7 life processes of living organisms, all in one cell.
- Unicellular organisms share common organelles, but they also have adaptations.
- Unicellular organisms can be helpful or harmful.
- Unicellular organisms use _____ to exchange substances.





_____ organisms are made of many cells (e.g. plants and humans).

- They are _____ and more _____ than unicellular organisms.
- They cannot rely on _____ alone for exchanging substances.
- Multicellular organisms depend on tissues, _____, and _____ working together to exchange and transport substances to cells of the body, to keep cells alive.
- Organ systems in humans include the **gas exchange system**, **digestive system**, **circulatory system**, **skeletal system** and **muscular system**.

- Used in _____
- Used to make _____

- Supports _____
- Used to make _____

Gas exchange system

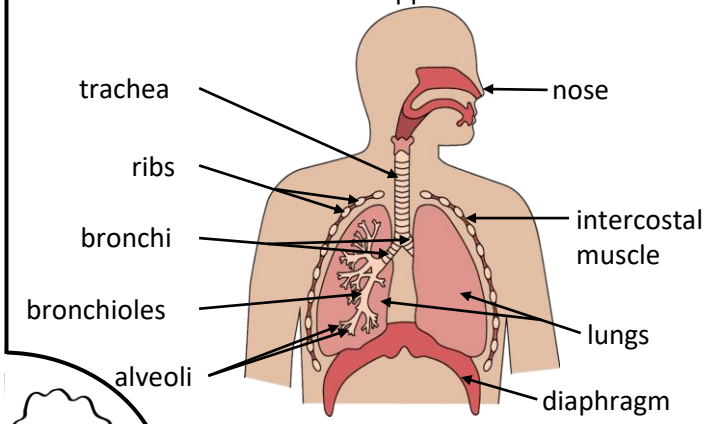
Inhaled air contains more _____ than exhaled air. Exhaled air contains more _____ than inhaled air.

_____ involves changes in pressure and volume inside the chest, helped by the movement of intercostal muscles and diaphragm, which causes the movement of the ribcage.

Vital capacity is the maximum volume of air exhaled after inhaling fully and can be used to estimate lung volume.

The human gas exchange system allows for the exchange of _____ and _____ between an organism and its _____.

_____ moves from the _____ into _____ and then into the blood vessels (capillaries), while carbon dioxide moves in the opposite direction via diffusion.



Alveoli are adapted for efficient diffusion:

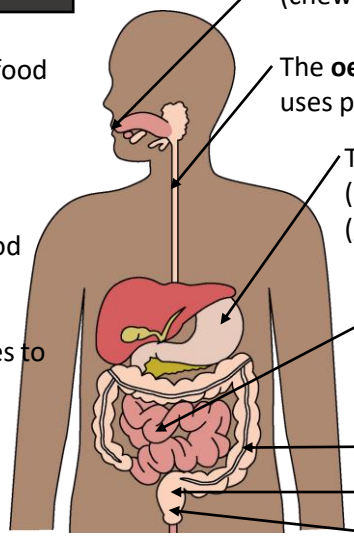
- **Good** _____ _____ maintains the concentration difference
- **large** _____ for faster rate of diffusion
- **thin** _____ (one cell thick) to provide a shorter diffusion pathway

	Inhalation	Exhalation
Intercostal muscles		
Ribcage		
Diaphragm		
Volume in the chest		
Pressure in the chest		
Movement of air		

Organ systems

Digestive system

- The human digestive system breaks down large, insoluble food molecules into small, soluble molecules so that they can be absorbed into the blood.
- **Mechanical digestion:** the physical breakdown of food into smaller pieces.
- **Chemical digestion:** the use of chemical substances to break food down into smaller molecules.



The **mouth** performs both mechanical digestion (chewing) and chemical digestion (saliva).

The **oesophagus** connects the mouth to the stomach and uses peristalsis to push food down.

The **stomach** performs both mechanical digestion (muscular tissue contracts) and chemical digestion (glandular tissue producing chemical substances).

The **small intestine** breaks down food chemically. Absorption of digested nutrients also happens here.

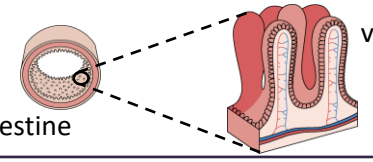
The **large intestine** reabsorbs water from undigested food back into the blood.

Faeces (poo) are stored in the **rectum**.

Faeces and waste gases are egested from the **anus**.

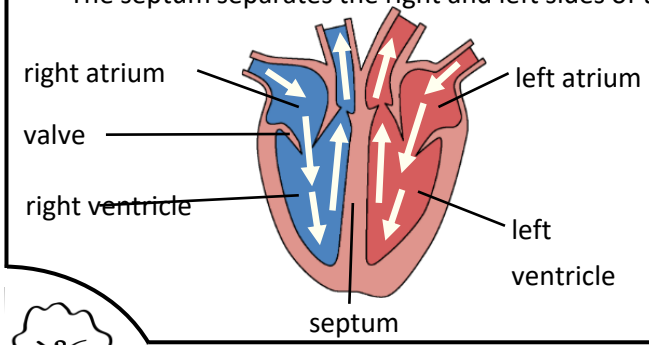
Adaptations:
The small intestine is covered in many villi for efficient absorption by diffusion:

- villi provide a **large surface area** for faster rate of diffusion
- villi have **good blood supply** to maintain the concentration difference
- villi have **thin walls** (one cell thick) to provide a shorter diffusion pathway



Circulatory system

- The circulatory system transports useful molecules and waste around the body. The human circulatory system consists of the heart, blood and blood vessels.
- The heart has four chambers: two atria and two ventricles.
- Valves ensure blood flows in the right direction.
- The septum separates the right and left sides of the heart.



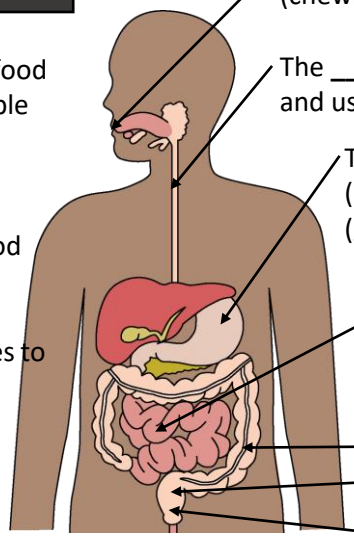
The heart pumps oxygenated blood from the lungs to the body and deoxygenated blood from the body to the lungs (double circulatory system).

Arteries	Capillaries	Veins
• Blood taken away from heart • High pressure blood • Thick muscular and elastic walls • Small lumen	• Exchange substances between blood and cells • Very low pressure blood • Very thin walls (one cell thick) • Very small lumen	• Blood brought back to heart • Low pressure blood • Thin walls • Large lumen • Valves prevent back flow

Organ systems

Digestive system

- The human digestive system breaks down ____, insoluble food molecules into _____, soluble molecules so that they can be _____ into the blood.
- _____ **digestion:** the physical breakdown of food into smaller pieces.
- _____ **digestion:** the use of chemical substances to break food down into smaller molecules.



The _____ performs both mechanical digestion (chewing) and chemical digestion (saliva).

The _____ connects the mouth to the stomach and uses peristalsis to push food down.

The _____ performs both mechanical digestion (muscular tissue contracts) and chemical digestion (glandular tissue producing chemical substances).

The _____ breaks down food chemically. Absorption of digested nutrients also happens here.

The _____ reabsorbs water from undigested food back into the blood.

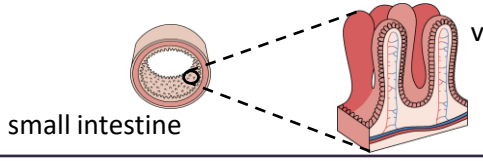
Faeces (poo) are stored in the _____.

Faeces and waste gases are egested from the _____.

Adaptations:

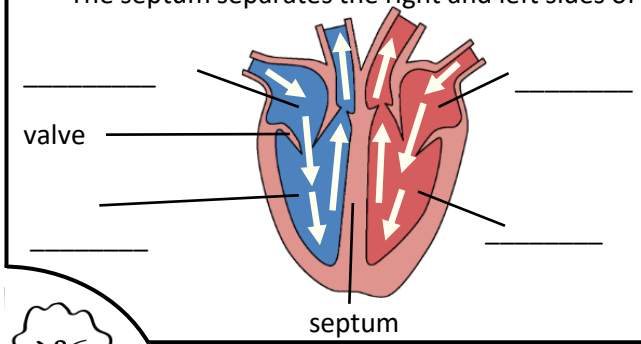
The small intestine is covered in many _____ for efficient absorption by diffusion:

- villi provide a _____ for faster rate of diffusion
- villi have _____ to maintain the concentration difference
- villi have _____ (one cell thick) to provide a shorter diffusion pathway

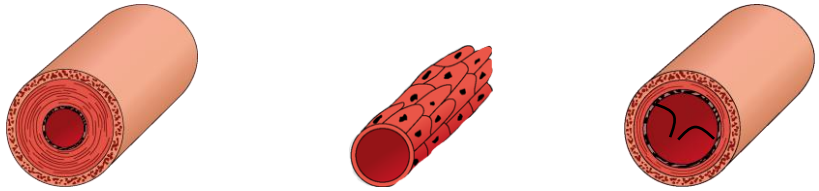


Circulatory system

- The circulatory system transports useful molecules and waste around the body. The human circulatory system consists of the _____, _____ and _____.
- The heart has four chambers: two _____ and two _____.
- Valves ensure blood flows in the right direction.
- The septum separates the right and left sides of the heart.



The heart pumps oxygenated blood from the ____ to the _____ and deoxygenated blood from the ____ to the ____ (_____ circulatory system).

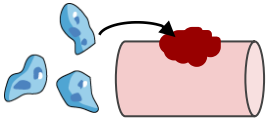


• Blood taken away from heart • High pressure blood • Thick muscular and elastic walls • Small lumen	• Exchange substances between blood and cells • Very low pressure blood • Very thin walls (one cell thick) • Very small lumen	• Blood brought back to heart • Low pressure blood • Thin walls • Large lumen • Valves prevent back flow

Organ systems

Circulatory system (continued)

Blood is a fluid that transports substances, useful molecules and waste around the body.
Blood helps the body to defend against diseases and to form scabs to heal cuts.



Platelets help with blood clotting for wound healing.

Plasma carries the other blood parts, nutrients, waste and carbon dioxide.
It is yellow coloured and mostly water.

Red blood cells carry oxygen to all the cells of the body.

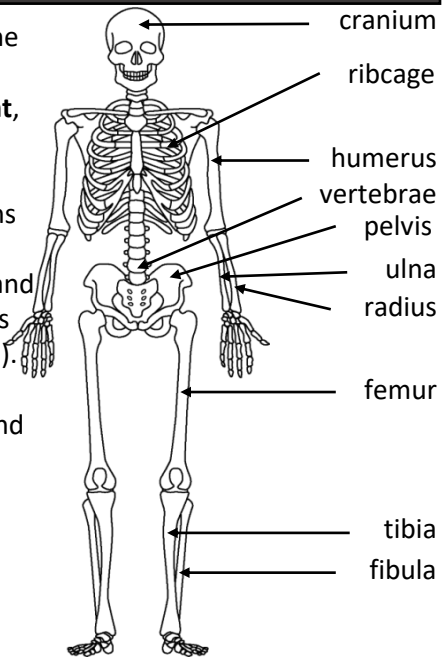
White blood cells help defend against disease.

Adaptations of the red blood cells:
- biconcave shape →large surface area for faster oxygen diffusion
- contains haemoglobin → carry oxygen
- no nucleus → space for more haemoglobin → more oxygen

Red blood cells, white blood cells and platelets are made in the **bone marrow** - soft tissue inside large bones protected by the hard part of the bone around it.

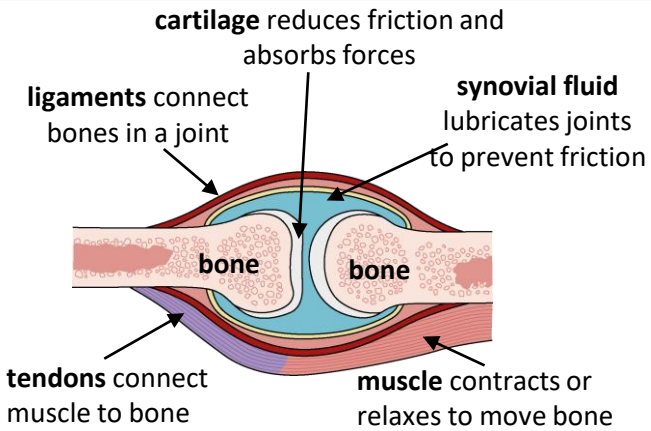
Skeletal system

Four functions of the skeletal system are **support**, **movement**, **making new blood cells** and **protection** of organs (e.g. the cranium protects the brain and the ribcage protects the heart and lungs). **Bones** are living tissues that grow and change.



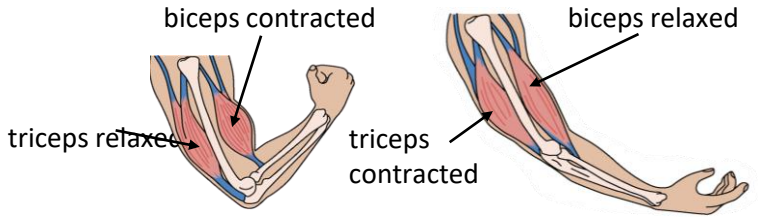
Joints, muscles and movement

A joint is the point where two or more bones meet in the body.
Joints connect bones and allow the body to move and bend. Different joint types allow various movements:
- **hinge** joint: movement backwards and forwards e.g. the knees and elbows
- **ball-and-socket** joint: movement in many directions e.g. the hips and shoulders
- **pivot** joint: twisting movement around a fixed point e.g. the neck
- **fixed** joint: does not allow for any movement e.g. in the cranium



Ageing can lead to joint wear, inflammation and arthritis. Arthritis causes joint pain and affects synovial fluid and cartilage.

- Muscles can **only** pull, they **cannot push**;
- Muscles work in **antagonistic muscle** pairs**.** When one muscle contracts to pull the bone in one direction, the other muscle relaxes to allow movement.

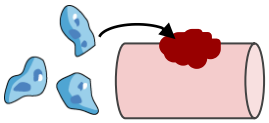


- The way in which muscles and bones work together to exert forces is called **biomechanics**.
- **Muscle strength** varies based on muscle size, age, sex, training, nutrition and injury.

Organ systems

Circulatory system (continued)

Blood is a fluid that transports substances, useful molecules and waste around the body.
Blood helps the body to defend against diseases and to form scabs to heal cuts.



_____ help with blood clotting for wound healing.

_____ carries the other blood parts, nutrients, waste and carbon dioxide. It is yellow coloured and mostly water.

_____ **c**arry oxygen to all the cells of the body.

_____ help defend against disease.

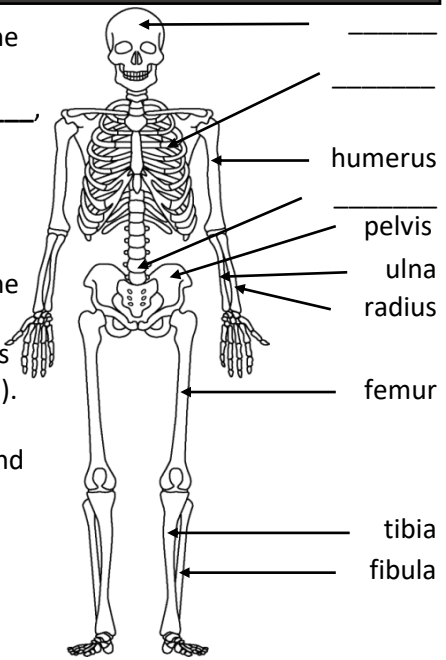
Adaptations of the red blood cells:

- biconcave shape → _____ for faster oxygen diffusion
- contains haemoglobin → carry _____
- no _____ → space for more haemoglobin → more oxygen

Red blood cells, white blood cells and platelets are made in the _____ _____ - soft tissue inside large bones protected by the hard part of the bone around it.

Skeletal system

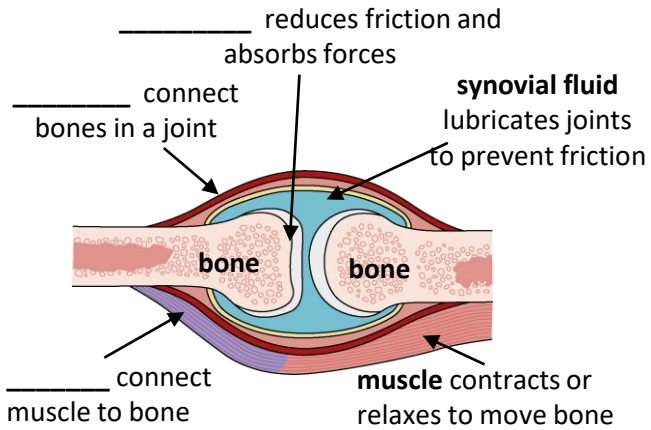
Four functions of the skeletal system are _____, _____, **making** _____ _____ and _____ of organs (e.g. the cranium protects the brain and the ribcage protects the heart and lungs).
Bones are living tissues that grow and change.



Joints, muscles and movement

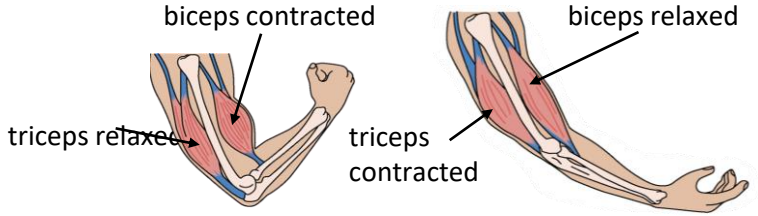
A ____ is the point where two or more bones meet in the body.
Joints connect bones and allow the body to move and bend. Different joint types allow various movements:

- _____ joint: movement backwards and forwards e.g. the knees and elbows
- _____ joint: movement in many directions e.g. the hips and shoulders
- _____ joint: twisting movement around a fixed point e.g. the neck
- _____ joint: does not allow for any movement e.g. in the cranium



Ageing can lead to joint wear, inflammation and arthritis. Arthritis causes joint pain and affects synovial fluid and cartilage.

- Muscles can **only** _____, they **cannot push**;
- Muscles work in _____ **muscle** pairs**.** When one muscle _____ to pull the bone in one direction, the other muscle _____ to allow movement.



- The way in which muscles and bones work together to exert forces is called **biomechanics**.
- **Muscle strength** varies based on muscle size, age, sex, training, nutrition and injury.

Year 7 Term 4 Science / Physics : Topic 7.06 Sound and Light

What we are learning this term:

A. Compare Light and Sound waves
B. Wave behaviour
C. Sound waves
D. Hearing ranges
E. Uses of sound

3 Key Words for this term

1. Ultrasound
2. Frequency
3. Transverse

A. How do sound waves compare with Electromagnetic waves (e.g. Light)

Sound	EM waves, like light
Requires a medium (particles) to travel	Does not require a medium (particles)
Longitudinal waves	Transverse Waves
Travels faster in more dense media. In air 330m/s	Travels slower in more dense material. In vacuum 3 x 10^8 m/s

A. Types of Waves

Waves **transfer energy** without transferring matter.

A. What are the two types of waves?

Transverse	Longitudinal
• **Oscillations are perpendicular** to the direction of **energy transfer.**	• **Oscillations are parallel** to the direction of **energy transfer.**

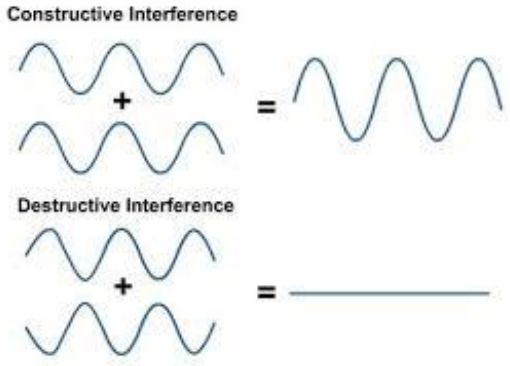
B. What different behaviours do waves show?

Waves can travel through all sorts of media, and different things can happen at the **boundary** between different media:

Transmission	**Passing through**, we say a wave is 'transmitted' through a medium
Reflection	When a wave **bounces back** from a boundary between media at the same angle as which it hit the boundary.
Refraction	When a wave **changes direction** at the boundary between media due to a change in speed.
Absorption	When the energy a wave transfers goes into heating a material.
Diffraction	The spreading out of a wave after it passes through a gap.

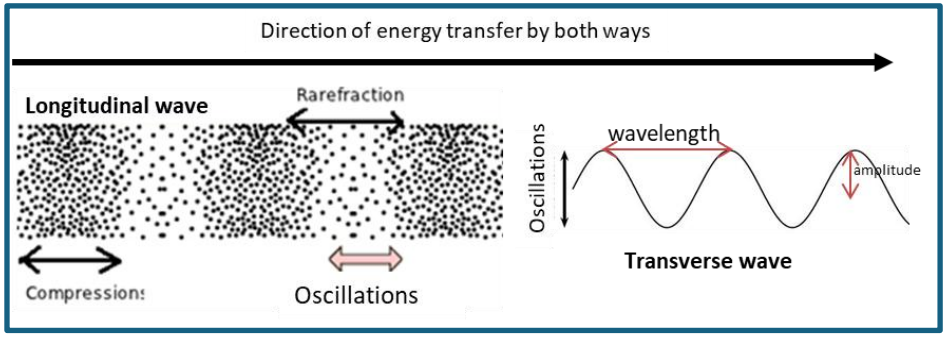
B. What is Superposition

Superposition occurs when two or more of the same kind of waves are travelling together. The waves can add up or cancel each other out depending on how they line up.



C. Changes in sounds

What is pitch?	The highness/lowness of a sound. Higher sounds have a higher frequency
What is frequency?	The number of oscillations in a wave per second. This is also the number of waves passing a point per second. It is measured in Hertz (Hz)
What is volume?	The intensity of a sound. Louder sounds have a larger amplitude. It is measured in decibels (dB)



Year 7 Term 4 Science / Physics : Topic 7.06 Sound and Light

What we are learning this term:

A. Compare Light and Sound waves
B. Wave behaviour
C. Sound waves
D. Hearing ranges
E. Uses of sound

3 Key Words for this term

1.
2.
3.

A. How do Sound waves compare to Electromagnetic waves (e.g. Light)?

Sound	EM waves, like light

A. Types of Waves

Waves transfer energy without transferring matter.

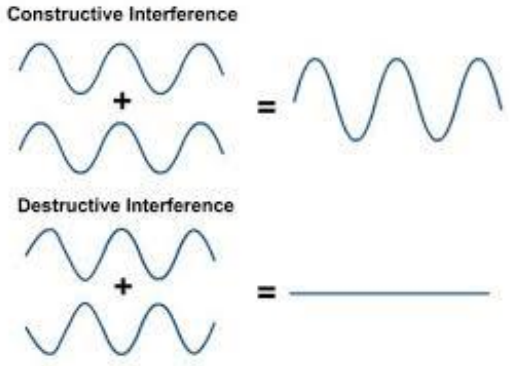
A. What are the two types of waves?

B. What different behaviours do Waves show?

Waves can travel through all sorts of media, and different things can happen at the **boundary** between different media:

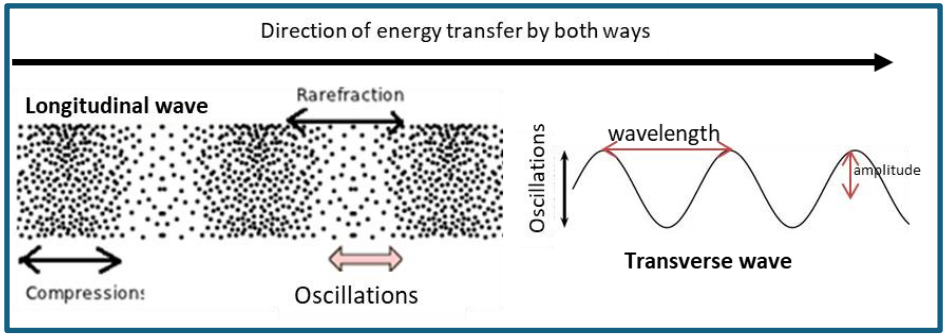
Transmission	
Reflection	
Refraction	
Absorption	
Diffraction	

B. What is Superposition?



C. Changes in sounds

What is pitch?	
What is frequency?	
What is volume?	



Year 7 Term 4 Science / Physics : Topic 7.06 Sound and Light

C. How is sound produced?

Sound is produced by **vibrations**

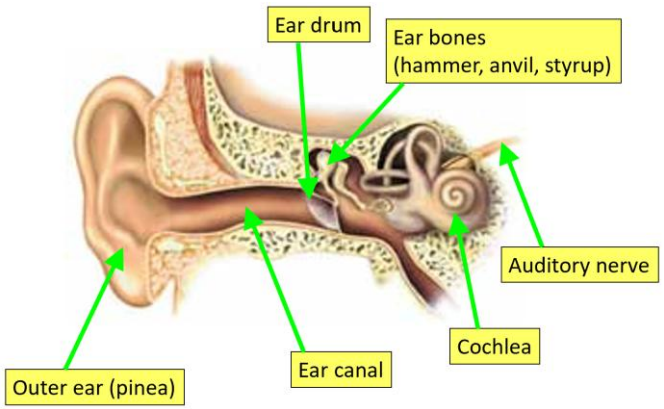
How does sound travel?

Vibrations transfer energy through particles.

Which media does sound travel fastest in and why?

Solids – the particles are closer together

C.	Part of the Ear	What is the Function?
1. Outer ear (pinea)		Collects the sound like a funnel.
2. Ear canal		Transmits sounds from the pinea to the ear drum
3. Ear drum		Sound waves causes this to vibrate
4. Ear bones (hammer, anvil, stirrup)		After the ear drum vibrates, it passes the vibrations on to these. They transfer the vibrations to the cochlea
5. Cochlea		Receives vibrations and converts these to nerve impulses
6. Auditory nerve		Carries nerve impulses (messages) to the brain



D. Hearing ranges

What is the hearing range of humans?	Humans have a hearing range between 20 – 20 000 Hz
What is ultrasound?	Sounds with a frequency **above 20 000 Hz**
What is ultrasound used for?	Uses of ultrasound: • Prenatal scans of unborn babies • Ultrasonic cleaning of fragile objects (eg jewellery) • Breaking up kidney stones to prevent harm.

E. What is an echo?

A reflected sound

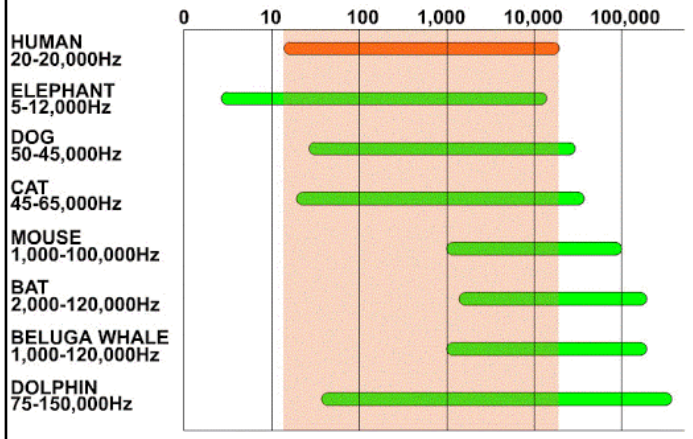
E. How do loudspeakers work?

- Loudspeakers are vibrating cones.
- The pattern and frequency of the vibrations (oscillations) determines the sound.

How do Microphones work?

Microphones have a vibrating <u>diaphragm</u> inside, which converts the sound wave into an electrical signal in a circuit.

D. What are the hearing ranges of animals?

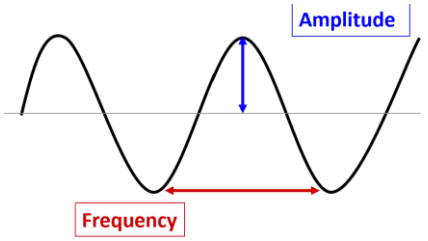


D. Seeing sounds – How can you see sounds?

You can use an instrument called an oscilloscope to see a sound wave

Amplitude (volume) is shown by the height. The higher the waves, the louder the sound.

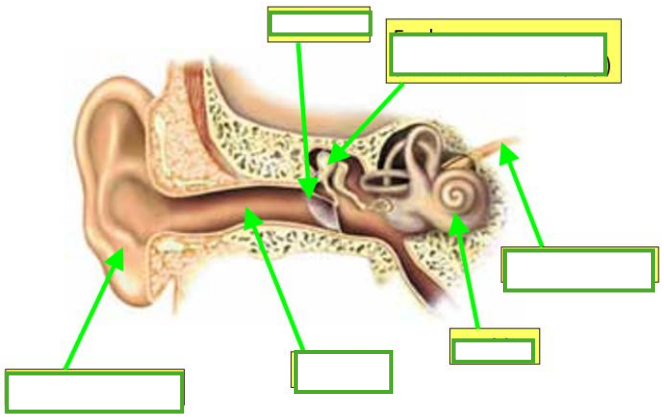
The frequency (pitch) is shown by how close the waves are to each other. The closer they are, the higher the pitch.



Year 7 Term 4 Science / Physics : Topic 7.06 Sound and Light

C.	How is sound produced?
How does sound travel?	
Which media does sound travel fastest and why?	

C.	Part of the Ear	What is the Function?
1.	Outer ear (pinea)	
2.	Ear canal	
3.	Ear drum	
4.	Ear bones (hammer, anvil, stirrup)	
5.	Cochlea	
6.	Auditory nerve	

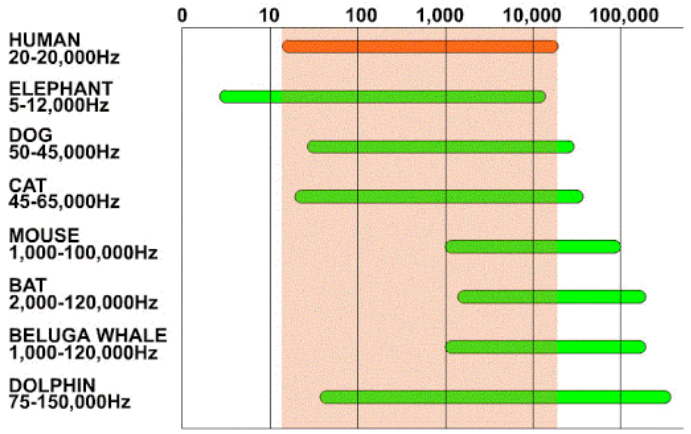


D.	Hearing ranges
What is the hearing range of humans?	
What is Ultrasound?	
What is ultrasound used for?	

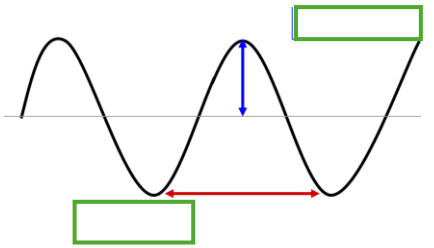
E.	What is an echo?

E.	How do loudspeakers work?
How do Microphones work?	

D.	What are the hearing ranges of animals



D.	Seeing sounds – How can you see sounds?
Amplitude (volume) is shown by:	
The frequency is shown by:	



Year 7 Term 4 Science / Physics : Topic 7.06 Sound and Light

What we are learning this term:

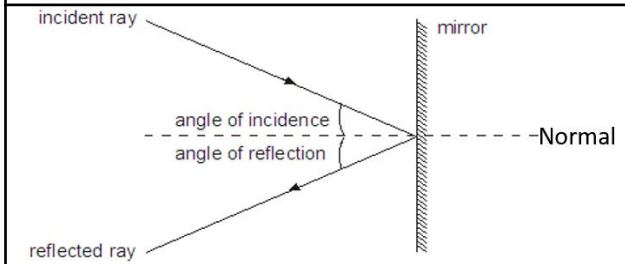
A. Light and materials
B. Ray model
C. Colour
D. Weight and mass
E. Astronomical structures and distances
F. Days, years and seasons

6 Key Words for this term

1. Vacuum
2. Refraction
3. Absorption
4. Transmission
5. Wavelength
6. Reflection

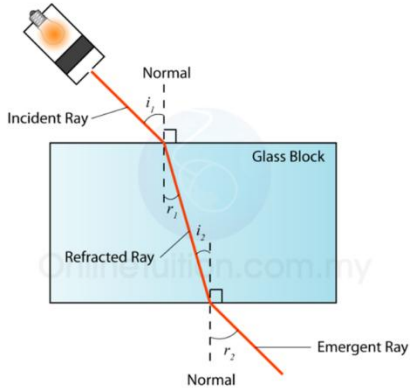
B. What is reflection?

When a ray of light (**incident ray**) reflects off a material and the reflected ray of light then goes into your eye, for you to see it.



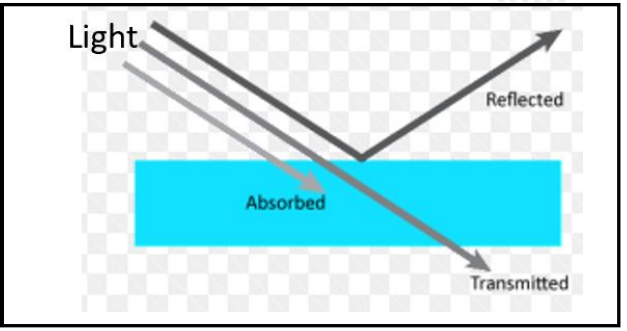
B. What is refraction?

When light **changes direction** as it enters or leaves a different medium (material).



A. What are the three different ways light interacts with material?

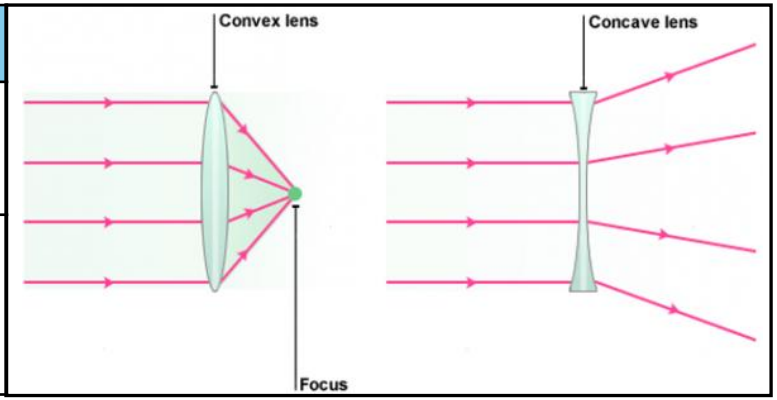
Light is **transmitted**	it passes straight through
Light is **absorbed**	it does not pass through
Light is **reflected**	light bounces off the surface of the material



B. What is are the two types of lenses?

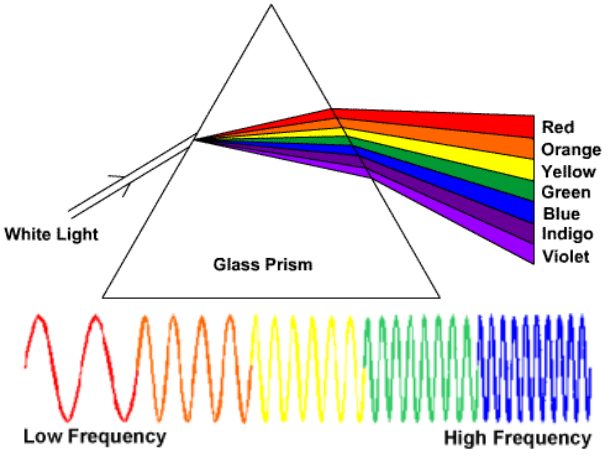
Convex lens – light rays are refracted then **converge** (meet up).

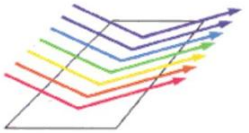
Concave lens – light rays are refracted then **diverge** (move apart).



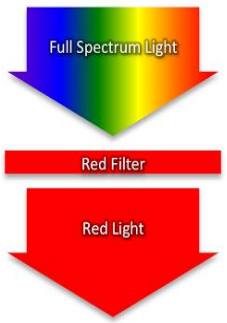
C. What is light dispersion?

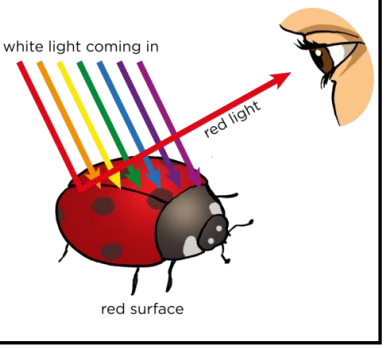
The **separation of white light** into colours according to frequency.





- **Black – all colors absorbed, nothing reflected**
- **White – all colors reflected, nothing absorbed**





Year 7 Term 4 Science / Physics : Topic 7.06 Sound and Light

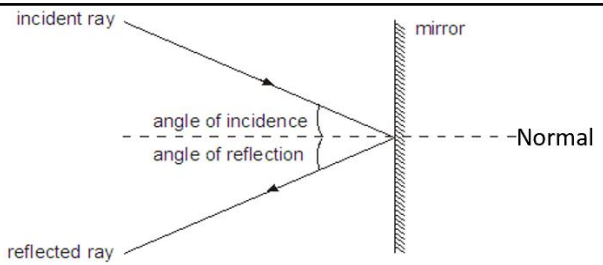
What we are learning this term:

A. Light and materials
B. Ray model
C. Colour
D. Weight and mass
E. Astronomical structures and distances
F. Days, years and seasons

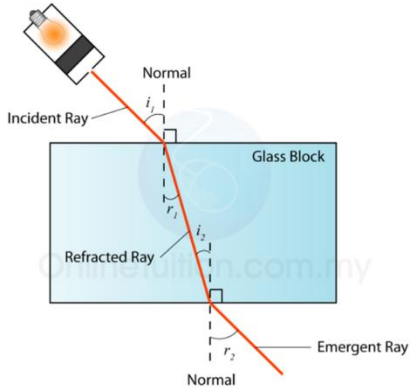
6 Key Words for this term

1.
2.
3.
4.
5.
6.

B. What is reflection?

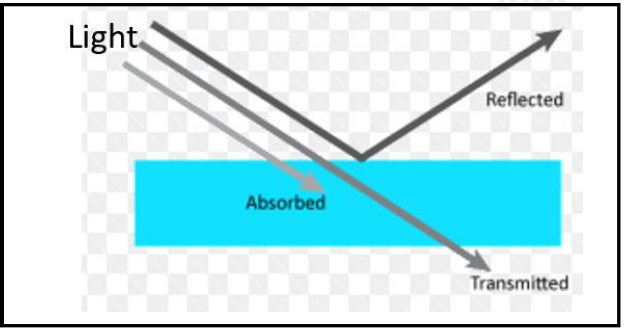


B. What is refraction?

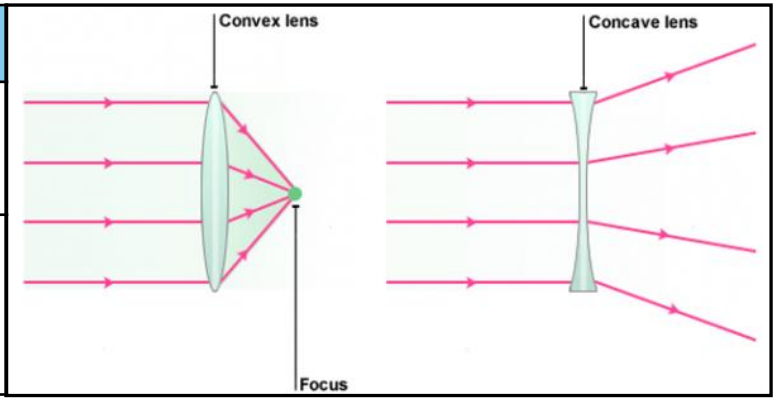


A. What are the three different ways light interacts with material?

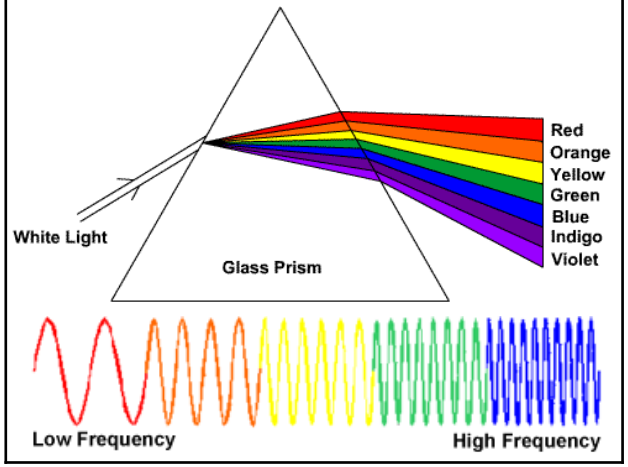
Light is _____	it passes straight through
Light is _____	it does not pass through
Light is _____	light bounces off the surface of the material

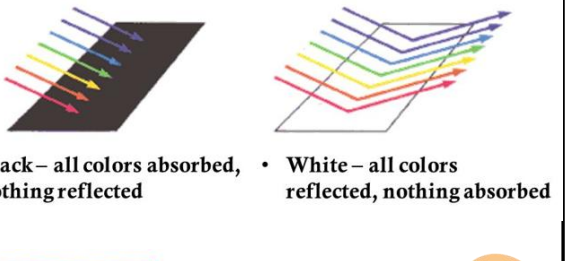


B. What is are the two types of lenses?

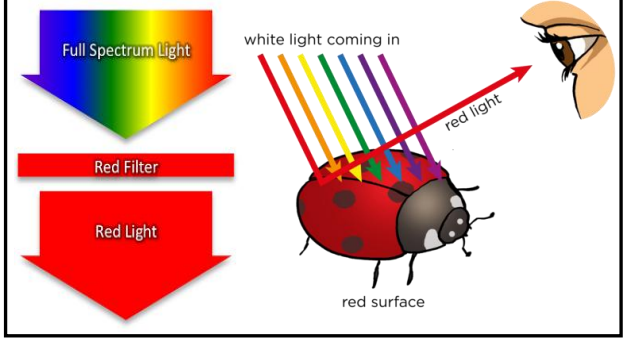


C. What is light dispersion?





- Black – all colors absorbed, nothing reflected
- White – all colors reflected, nothing absorbed



7.05: World of work

Background

A	**The world of work can be classified into four different employment sectors.**
B	**Many factors influence the type of employment sector which will be found within a particular country.**
C	**Industrial location is influenced by some key factors, which are more important for some industries in comparison to others.**
D	**Employment structure within countries varies based upon the level of development.**
E	**Trade, imports and exports.**
F	**Employment sectors and impact of industry in Russia.**

A) Employment sectors

1	**employment**	(n) when people are in work, receiving a wage and paying tax.
2	**unemploy-ment**	(n) when people are not in work, therefore do not receive a wage and do not pay tax.
3	**primary industries**	(n) industries which collect or extract natural resources from the environment, such as farming or fishing.
4	**secondary industries**	(n) industries which manufacture goods into products, such as builders, car manufacturers or food processing
5	**tertiary industries**	(n) industries that provide a service, such as teachers, doctors, sales, hairdressers or bus drivers.
6	**quaternary industries**	(n) industries that involve using technology, design and research, including computer scientists, game designers, computer engineers and research scientists.

B) Influences on employment structures

1	**industrialisation**	(n) a move from primary employment to secondary employment, with a rise in manufacturing.
2	**mechanisation**	(n) when machinery begins to do the jobs which once required humans.
3	**disposable income**	(n) the money a person has left to spend after they have paid all their bills.
4	**public services**	(n) a service that is given or funded for the benefit of the community.

C) The location of industries

1	**site**	(n) the actual place where a settlement first grew up. This refers mainly to its physical setting.
2	**situation**	(n) the location of a place relative to other features nearby.
3	**footloose**	(adj) industries which are not tied to a specific location and can operate from anywhere.
4	**raw materials**	(n) natural resources that are used to make other things.
5	**labour**	(n) workers, employed people.
6	**market**	(n) a place where things are bought and sold.

E) Trade

1	**trade**	(n) the exchange of goods and materials between countries.
2	**import**	(v) goods brought into a country.
3	**export**	(v) sending goods to another country for sale.
4	**trade bloc**	(n) an arrangement in which participant countries lower trade barriers with one another.
5	**tariff**	(n) a tax imposed on goods when they are imported or exported between countries.

D) Employment structures and development

Countries	Industries
developing countries	Large primary sector, growing secondary sector and a moderate tertiary sector.
emerging countries	large secondary sector, rapidly falling primary sector and growing tertiary sector.
developed countries	A large tertiary sector, a growing quaternary sector, both secondary and primary employment is low.

Change	Cause
Falling primary and secondary sector	1. Cheaper to import. 2. Mechanisation has taken jobs. 3. Raw materials have been exhausted in certain areas.
Growing tertiary sector	1. Disposable income has increased, so a greater demand for services. 2. A large public sector e.g. health and education, due to a high tax revenue.

F) Case study: World of work in Russia

Factors effecting trade in Russia

Opportunities	Challenges
With a working population of over 75 million people, Russia has one of the largest workforces in the world.	Russia is at war with Ukraine which affects international relationships.
The Steppe and temperate woodlands of western Russia are fertile and flat.	Russia has the largest land mass of any country.
Russia has an extensive network of roads, railways, ports and pipelines.	Russia does not have a warm water port.
Russia has vast reserves of natural resources including oil and natural gas.	Many countries aim to buy and use less oil and natural gas in the future to mitigate the effects of climate change.
Russia's education system puts a strong focus on science, technology, engineering and maths (STEM).	

7.05: World of work

Background

A	**The world of work can be classified into four different employment sectors.**
B	**Many factors influence the type of employment sector which will be found within a particular country.**
C	**Industrial location is influenced by some key factors, which are more important for some industries in comparison to others.**
D	**Employment structure within countries varies based upon the level of development.**
E	**Trade, imports and exports.**
F	**Employment sectors and impact of industry in Russia.**

A) Employment sectors

1	**employment**
2	**unemploy-ment**
3	**primary industries**
4	**secondary industries**
5	**tertiary industries**
6	**quaternary industries**

B) Influences on employment structures

1	**industrialisation**
2	**mechanisation**
3	**disposable income**
4	**public services**

C) The location of industries

1	**site**
2	**situation**
3	**footloose**
4	**raw materials**
5	**labour**
6	**market**

E) Trade

1	**trade**
2	**import**
3	**export**
4	**trade bloc**
5	**tariff**

D) Employment structures and development

Countries	Industries
developing countries	
emerging countries	
developed countries	

Change	Cause
Falling primary and secondary sector	
Growing tertiary sector	

F) Case study: World of work in Russia

Opportunities	Challenges

Year 7 History : Challenges to medieval kings

What we are learning this term:

How similar were the challenges to medieval kings and how well did the monarchs deal with them?

A. Keywords /
B. Disagreements between Becket and King Henry II – a religious challenge
C. King John, the Barons and Magna Carta – a political challenge
D. Comparing the reigns of King John, Henry II and Richard II
E. King Richard II and causes of the Peasants Revolt

A.	*Can you define these key words?*
Epidemic	a widespread outbreak of an infectious disease
Leniency	Being merciful or tolerant towards someone
Pardons	Letters from a king forgiving a person for a crime.
Statute	a law
Martyr	Somebody who is willing to die for their beliefs.
Political	referring to politics (eg. Who is in charge, who has power, the king, parliament, barons ect.)
Social	Referring to people's lives (living conditions, wages, access to food and housing ect.)
Religious	Referring to religion (different religions, priests, popes, bishops, catholic, protestant ect.)
Interdict	The Pope banning all religious services in a country as a punishment for supposed sinful activity committed in that country or by its ruler
Labour Service	Free labour peasants were expected to do for knights and barons
Coronation	To crown someone to be the new king. In medieval England this could be done before the previous king had died.
Benefits of the clergy	The right for priests to be tried in church courts, avoiding the harsh penalties in normal courts
Miasma	The idea that disease is caused by foul smelling air.

B.	*Disagreements between Becket and King Henry II – a religious challenge*
Banning of Church Courts	Henry II wanted to get rid of the church courts an appointed his fried Thomas Becket as Archbishop of Canterbury to do so in 1162. However once Thomas became Archbishop, he became very religious and refused to get rid of them.
Coronation of the king's son	After the argument over church courts Becket fled to France in 1164, as he feared for his life. King Henry II wanted to have his son Richard I crowned to be the next king. However he needed the archbishop of Canterbury to do it. With Becket out of the country Henry II got other bishops to do the job instead.
Excommunication of the bishops	In 1170 Becket and Henry made up and Becket returned to England. However once he returned, he excommunicated the other bishops. This made Henry II very angry and he shouted, "will no one rid me of this troublesome priest". This led to four knights going to Canterbury and murdering Thomas Becket.

E.	Comparing the reigns of King John, Henry II and Richard II	
	Similarities	**Differences**
Religious	King John and Henry II both had issues with the church. John wanted to abolish church courts and Henry wanted to choose his bishops	However these were for different reasons: • Henry II wanted control of the church courts and had conflict with Becket the Archbishop of Canterbury. This led to the bishops who had crowned Henry's son Richard got excommunicated as a punishment from the church. • John fought with the Pope over who to appoint Archbishop of Canterbury. This led to the Pope excommunicating him and putting England under interdict
Political	In all 3 cases there are conflicts/ violence brought about because people are challenging the absolute (complete) power of the kings. This has come from 3 different sources: the barons, the people and the church.	• King John and the Barons – King John is the only medieval king who had a direct political conflict. This was with the Barons who demanded that they be treated better and made attempts to limit the power of the king through Magna Carta.
Social	King John, King Henry and Richard II all lost social support but for a variety of different reasons	• King John – lost social support due to losing land and wars in France and also due to the supposed 'murder' of his nephew. This meant that backing was behind the Barons. • Henry II – lost support after public death of Becket (was whipped at Beckets tomb as punishment) • Richard – Poll Tax, Labour Service and limiting wages after the Black Death all contributed to the Peasants' Revolt.

Key individuals

Henry II – King from 1154, tried to bring the Church under royal control leading to Thomas Beckets (Archbishop of Canterbury) murder.
Eleanor of Aquitaine – Queen married to Henry II, she ruled England while Henry was away.
John I – King 1199 who was unpopular with his barons who rebelled against him. Signed the Magna Carta 1215.
Richard II – King 1377 and was 10 years old as King during the peasant's revolt.
Wat Tyler – Leader of the rebels during the Peasants revolt in 1381.

C.	King John, the Barons and Magna Carta – a political challenge
What mistakes did King John make that led to the barons rebelling.	John had lost many wars with France which made him look weak (he had the nicknames lackland and soft sword). These defeats meant that the barons lost land they owned in France. John kept asking for a number of taxes to pay for his wars which he carried on loosing. John was seen a cruel man – he made blind monks homeless and may have murdered his nephew. John fell out with the pope over who got to promote bishops. This led to England being placed under interdict meaning all church was cancelled. The barons feared for their souls and was angry with John. John started fining the barons for many different things and made them pay large taxes when they inherited land.
What were the key points of Magna Carta?	<u>Short term</u> • a £100 limit on the tax barons had to pay to inherit their lands • the king could not sell or deny justice to anyone • the royal forests were to be reduced in size • an heir could not be made to marry someone of a lower social class • foreign knights had to be deported • no-one could be arrested on the accusation of a woman <u>Long term</u> Eventually it gave everyone freedoms such as stopping people being arrested for no reason
Why is it still relevant today?	Still forms parts of English law. Additionally most see it as the basis of rights and freedoms so countries such as Australia and the USA include parts of it in their constitutions.

D.	King Richard II and causes of the Peasants Revolt
Labour Services	Ever since 1066 most peasants (known as villains) had to do free labour services their local lords (knights and barons). Some peasants, known as freeman, did not want to do this work. Peasants wanted everyone to become freeman ending the free labour they had to do for their lords.
The impact of the Black Death on wages	The Black Death had killed around 40% of the population of England in 1348. This meant that there was a severe labour shortage. Now the peasants were in demand they could demand more money for their work. The barons were upset by this and got King Richard II to pass a law limiting how much a peasant could earn and banned them from declining to do work for this low amount of pay. This made the peasants angry as they now had their earnings greatly reduced.
Poll taxes	Between the years 1377 and 1381 the king demanded a number of Poll Taxes to fund his losing war with the French. These meant everyone over 15 had to pay a tax and impacted the poorest in society most of all. The tax of 1381 was partially bad demanding 4 pence per person over 15.

Year 7 History : Challenges to medieval kings

What we are learning this term:

How similar were the challenges to medieval kings and how well did the monarchs deal with them?

A. Keywords
B. Disagreements between Becket and King Henry II – a religious challenge
C. King John, the Barons and Magna Carta – a political challenge
D. Comparing the reigns of King John,Henry II and Richard II

Benefits of the clergy	
Miasma	

D.	Comparing the reigns of King John,Henry II and Richard II	
	Similarities	**Differences**
Religious		
Political		
Social		

Key individuals

Henry II – King from 1154, tried to bring the Church under royal control leading to Thomas Beckets (Archbishop of Canterbury) murder.
Eleanor of Aquitaine – Queen married to Henry II, she ruled England while Henry was away.
John I – King 1199 who was unpopular with his barons who rebelled against him. Signed the Magna Carta 1215.
Richard II – King 1377 and was 10 years old as King during the peasant's revolt.
Wat Tyler – Leader of the rebels during the Peasants revolt in 1381.

C.	King John, the Barons and Magna Carta – a political challenge
What mistakes did King John make that led to the barons rebelling.	
What were the key points of Magna Carta?	
Why is it still relevant today?	

B.	*Disagreements between Becket and King Henry II – a religious challenge*
Banning of Church Courts	
Coronation of the king's son	
Excommunication of the bishops	

E.	King Richard II and causes of the Peasants Revolt
Labour Services	
The impact of the Black Death on wages	
Poll taxes	

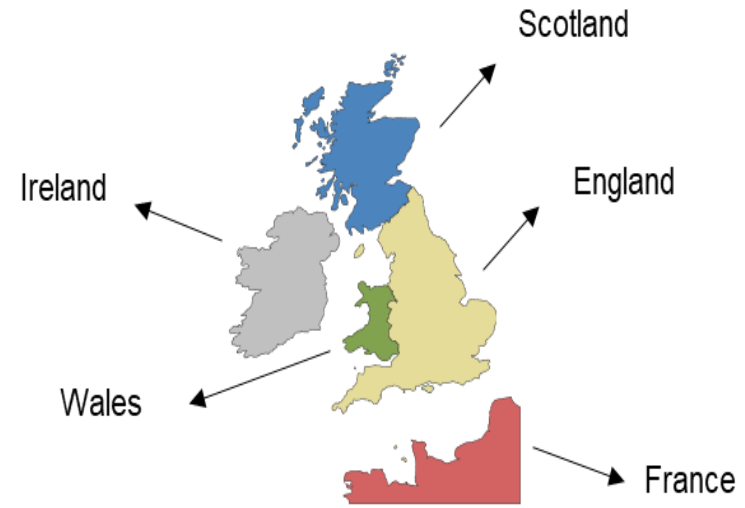
Year 7 History : England and her neighbours

What we are learning this term:

What was England's relationship like with its neighbours and how this impacted the country.

A. Keywords
B. The relationships between England and her neighbours.
C. The actions and influences of key individuals during this time.
D. **The links between heritage and locations, being linked to something or somewhere.**

A.	*Can you define these key words?*
Artillery	Very large guns, in this period this included gunpowder cannons that fire long distances.
Hatchet	Single handed wooden axe with a handle
Heresy	A belief that goes against the teachings of the Church
Homage	Special honour or respect paid to someone in public or private
Lance	A spear used by soliders on horseback
Mace	A type of blunt weapon used for close combat
Polearms	A sharp bladed handheld weapon on a wooden pole
Relations	A way in which two people or countries behave towards one another.
Resistance	Refusal to obey or accept something
Siege	A military act of surrounding a city or base, attacking it, and cutting off supplies. The goal of a siege is to force the city or base to surrender/.



Key individuals

Henry III – King from 1216-1272 his poor and weak rule contributed to the second Barons war in 1264-67
Edward I – King following his father Henry III antagonized and started war with Llywelyn after imprisoning his bride-to-be.
Alexander III – 1249 – 1286 He is well known for his capture of the western isles previously held by Norway.
William Wallace – Commander of the Scottish army at Stirling Bridge. He defeated the English and was knighted "Guardian of Scotland.

Power	The control a person or group has in a country. For example, resistance grew in Scotland by people such as William Wallace and Robert Bruce. *This includes threads such as succession, warfare, protest, democracy, crime and punishment.*
Identity	The qualities and characteristics that make a person who they are and what they value as important. For example, Joan of Arc inspired French troops. *This includes threads such as the role of women.*
Connectivity	The act of joining or being linked to somewhere, someone or something else. For example, the people who lived in medieval Wales were mostly descendants of Celtic Britons who migrated during the Anglo-Saxon period. *This includes threads such as migration.*

Hatchet

Mace

Lance

Polearm

E.	Causes of the 100 year war
Land in France	The English controlled a lot of land in France that was used to produce Wine. This made the English a lot of money, but the French were threatening to take it back.
Control of Flanders	The English controlled Flanders where a lot of wool was made benefitting the English. Yet again, the French were threatening to take their land back from the English.
French Succession	Charles IV had died without an heir, so Edward III attempted to claim the French throne as his mother was Charles' sister. Philip of Valois, Charles Cousin was crowned instead by authorities.

Control of Flanders	
French Succession	

7.03: Judaism

Key Vocabulary

1	**Abraham**	The founder of Judaism and husband of Sara.
2	**Covenant**	An agreement between two sides (between humans and God).
3	**Sara**	Female leader, mother of nations and wife of Abraham.
4	**Isaac**	The son of Abraham and Sara.
5	**Moses**	Leader who freed the Israelites from slavery and was given the 10 commandments.
6	**Miriam**	Prophetess who helped her brother Moses lead the Israelites out of slavery.
7	**Exodus**	A book in the Bible which tells the story of the Israelites being freed from slavery.
8	**Ten Commandments**	Ten rules given to Moses by God about how humans should behave.
9	**Esther**	A Jewish queen who saved her people from a plot to destroy them.
10	**Monotheism**	The belief that there is only one God.
11	**Shema**	An important prayer, declaring the oneness of God.
12	**Messiah**	A future Jewish king who is expected to bring peace.
13	**Genesis**	A book in the Bible which describes the creation of the world.
14	**Mitzvot**	613 rules in the Torah which guide Jews in their behaviour.
15	**Tikkun Olam**	"Repairing the world", encouraging actions that improve society and bring justice.
16	**Synagogue**	A Jewish place of worship, study and community.
17	**Bar/Bat Mitzvah**	Coming of age ceremony (Bar Mitzvah for boys and Bat Mitzvah for girls).
18	**Pesach/Passover**	A Jewish holiday which commemorates the Exodus story.
19	**Shabbat**	A day of rest and worship observed from Friday evening to Saturday evening.
20	**Orthodox**	A branch of Judaism that follows traditional beliefs, laws and practices.
21	**Reform**	A branch of Judaism that adapts traditional beliefs, laws and practices to fit modern life.
22	**Prophecy**	A message given to humans from God, usually to a prophet.

Holy Books introduced

The Tanakh	Hebrew Bible, which includes three parts: the Torah, Nevi'im and Ketuvim.
The Torah	Holiest scripture for Judaism. The word means "law" in Hebrew. Written by Moses. Also important in Christianity and Islam.
Nevi'im	Contains books of the Prophets, which tell the history of Israel God's messages through the prophets.
Ketuvim	Contains various writings, including poetry, wisdom literature and historical accounts.
Talmud	Contains discussions and interpretations of the Torah, which guides Jewish law and practice.

Tools for Studying Religion

Theology is the study of God and ideas about God. Theologians look at how ideas about God influence beliefs in religions and the actions people will do.

Social Scientists use evidence to see how people are influenced by society. Social Scientists look at patterns in what people believe about God and how this may change due to time and place.

Year 7 Term 4 SPANISH Knowledge organiser: Topic = Mi Pueblo

What we are learning this term:

A. Name places in town
B. Describe a town / city
C. Say where you are going
D. Give and understand directions
E. Saying where things are
F. Talking about distance
G. Translation practice

6 Key Words for this term

1. Voy	4. la ciudad
2. ir	5. ¿Dónde está?
3. el pueblo	6. está

A. La Ciudad – The City

el aeropuerto	the airport
e café de internet	the internet café
la calle	the Street
la capital	the capital
la catedral	the catedral
el centro comercial	the shopping centre
el cine	the cinema
la estación de autobuses	the bus station
la estación de servicio	the petrol station
la estación de trenes	the train station
el estadio	the stadium
el hospital	the hospital
el instituto	the school
el mercado	the market
la oficina de turismo	the tourist office
el parque	the park
la piscina	the pool
la playa	the beach

B. Más lugares – More places

la plaza	the square
la plaza de toros	the bull ring
la plaza mayor	the main square
el polideportivo	the sports centre
el puente	the bridge
el río	the river
las tiendas	the shops
la tienda de regalos	the gift shop
la bolera	the bowling alley
el cine	the cinema
la universidad	the university
la iglesia	the church
el museo	the musuem
la galería de arte	the art gallery

C. ¿Cómo es tu casa? What's your house like?

Mi casa es…	My house is…
acogedor(a)	cosy
adosado/a	semi – detached
antiguo/a	old
bonito/a	pretty
cómodo/a	comfortable
grande	big
moderno/a	modern
nuevo/a	new
pequeno/a	small
reformado/a	renovated
muy	very
bastante	quite

D. Las Dirreciones – Directions

A la derecha	To the right
A la izquierda	To the left
Sigue todo recto	Go straight ahead
Por dónde se va al/a la…?	How do you get to…?
Dónde está…?	Where is…?
toma…	Take…
la primera a la derecha	the 1st on the right
la primera a la izquierda	the 1st on the left
la segunda	the 2nd
la tercera	the 3rd
baja	go down
cruza	cross
dobla	turn
sube por	go up
tuerce	turn
una Avenida	the avenue
un castillo	the castle
un edificio	the building
una fábrica	the factory
un puerto	the port

E. ¿Adónde vas? – Where are you going?

Voy	I go
Va	He/she goes
Van	They go
Vamos	We go
Voy al centro commercial	I'm going to the shopping centre
¡Hasta luego!	See you later!

Key Verbs

Ser To be	Tener To have	Hablar To speak	Comer To eat	Vivir To live
Soy I am	Tengo I have	Hablo I speak	Como I eat	Vivo I live
Eres You are	Tienes You have	Hablas You speak	Comes You eat	Vives You live
Es s/he is	Tiene He/she has	Habla s/he speaks	Come s/he eats	Vive s/he lives
Somos We are	Tenemos We have	Hablamos We speak	Comemos We eat	Vivimos We live
son They are	Tienen They have	Hablan They speak	Comen They eat	viven They live

E. Mi Ciudad – My city

Cómo es tu barrio?	What's your neighbourhood like?
Es…	It's…
antiguo/a	old
bonito/a	pretty
grande	big
histórico/a	historic
importante	important
industrial	industrial
pequeño/a	small
tranquilo/a	quiet
Me gusta mucho	I really like
Porque	because
¿Te gustaría visitar?	Wld you like to visit?
Me gustaría visitar	I wld like to visit
¿Qué hay en tu barrio?	What's in your neighbourhood?
el pueblo	the town
la ciudad	the city
Hay…	There is / there are
tiene…	It has
un monumento	a monument
un palacio	a palace
un parque nacional	a national park
un quiosco	a kiosk
ruidoso/a	noisy
animado/a	lively
limpio/a	clean
sucio/a	dirty
pintoresco/a	picturesque

F. Key Opinions/ Verbs across topics

tener	to have
ser	to be
ir	to go
hacer	to do/ to make
jugar	to play
ver	to see
escuchar	to listen
comprar	to buy
beber	to drink
salir	to go out
leer	to read
trabajar	to work
pensar	to think
escribir	to write
Me gusta	I like
Me encanta	I love
Odio	I hate
porque	because
divertido/a	fun
aburrido/a	boring
útil	useful
inútil	pointless
cómodo/a	comfortable
interesante	interesting
entretenido/a	entertaining
emocionate	exciting
guay	cool
genial	amazing
soso	dull
asqueroso/a	disgusting
malo	bad
bueno	good

QUIZZABLE - SPANISH Year 7 Term 4-6 Knowledge Organiser: Missed content due to Covid 19

What we are learning this term:

A. Talking about places in town / city
B. Saying what there is to do in town / city
C. Talking about sports and hobbies
D. Saying what you like to do in free time
E. Talking about household chores
F. Talking about plans for the weekend
G. Opinions
H. Extending your writing
I. Translation skills
J. Working on questioning

Ser	To be	Tener	To have	Infinitive	Present	Past	Future
soy	I am	tengo	I have	hablar to speak	Habl_ I speak	Habl_ I spoke	_____ I am going to speak
eres	You are	tienes	You have	comer to eat	Com_ I eat	Com_ I ate	_____ I am going to eat
es	s/he is	tiene	s/he has	ir to go	____ I go	__/___ I am/it was	_____ I am going to go
somos	We are	tenemos	We have	ser to be	soy I __	___ I was	_____ I am going to be
son	They are	tienen	They have	tener to have	T_____ I have	T___ I had	_____ I am going to have

A. La Ciudad – The City

_____
e café de internet
_____
la capital

It has lots of beaches and museums	T m p y m
I love my city because there are lots of things to do	M e m c p h m c q h

H . Key Questions: Answer the following in your own words. Use these model answers	
¿Dónde vives? Where do you live?	Vivo en una casa grande en una ciudad que se llama Swindon. Swindon esta en el sur de Inglaterra.
¿Qué hay en tu pueblo? What is in your town?	Mi pueblo es bastante grande. En mi pueblo, hay una estación de trenes, dos polideportivos, muchas casas pero no hay playa. Necesitamos un aeropuerto.
¿Cómo es tu pueblo? What is your town like?	Es una ciudad industria. Es muy antigua y histórica pero no es tranquila. Es un poco túristica porque hay un museo y un centro comercial grande.
¿Cómo sería tu pueblo ideal? What would your ideal town be like?	Si fuera rico/a, me gustaría vivir en una ciudad grande en España. Me gustaría vivir en Barcelona en España porque es una ciudad muy túristica, bonita y tiene una playa.

I. Key Questions: Translate these model answers using the KO	
¿Dónde vives? Where do you live?	I live in Portsmouth near to the sea. I live in a small house. I love my house because it's very cosy. Portsmouth is in the south of England.
¿Qué hay en tu pueblo? What is in your town?	In my town we have a lot of parks, a cathedral and 3 cinemas. There is a main square, a bullring and many markets. My town does not have an airport but it does have a port. In the future there is going to be a new school and an airport.
¿Cómo es tu pueblo? What is your town like?	My town is very small but very lively. There are a lot of tourists because my town is very near to the sea. In the summer there is a lot of traffic in my town. In the winter my town is very quiet.
¿Cómo sería tu pueblo ideal? What would your ideal town be like?	My ideal town would be very modern with lots of people. It would be very quiet with not much traffic. My ideal town would be pretty with lots of shops and lots of parks.

J. Key Grammar	
Use the verb **ESTAR** to talk about location	Mi casa está en Swindon = My house is in Swindon
Make sure adjectives agree e.g. blanco/blanca/blancos/blancas	Mi casa es blanc**a** = My house is white Mi perro es blanc**o** = My dog is white Mis zapatos son blanc**os** = My shoes are white Las mesas son blanc**as** = The tables are white
Justify opinions with because	Me gusta mi casa porque es blanca = I like my house because it's white
Saying 'to the'	Use AL or A LA (a + el = al) Al museo A la playa

Year 7 Project 3 – Under the Sea

What we are learning this term:

A. About the illustrator Ernst Haeckel and his work
B. How to use the grid method for accuracy
C. Drawing from observation of primary sources
D. How to work using oil pastels
E. How to make a simple clay pinch pot
F. How to decorate clay using glazes and oxides
G. What is texture
H. How to produce a mixed media outcome

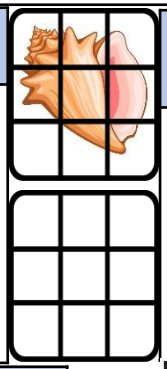
Key word	Key definition
illustration	a drawing, painting or printed work of art which visually represents or explains something
observation	the action of closely looking at something
source	Where something originates from
texture	the feel or appearance of a surface
tone	Lightness and darkness within an artwork
outcome	The final piece produced as a result of an art project

A. Who is Ernst Haeckel and what are the characteristics of his work?

Who?	philosopher, physician, professor, marine biologist, and artist who discovered, described and named thousands of new species,
What?	Beautifully detailed natural history illustrations depicting mostly marine life
Why?	To document and record newly discovered species of animals and plants

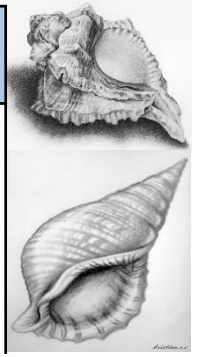
B. *How to use the Grid Method for accurate drawing*

1) Use a ruler to draw an equally spaced grid onto your image
2) Draw an identical grid **LIGHTLY** onto paper
3) Draw in the main *outlines* of your image, focusing on one square at a time Use a ruler to help you *measure* the positioning of lines if needed
4) Add main details before erasing he grid on the paper
5) Add fine *details* and build in *tone*



C Drawing primary sources from observation

Drawing from a primary source means drawing something from real life
Observe the objects closely
Lay out the basic shape(s) you can see
Refine and add detail
Add tone to show how light is hitting the object(s)



D How to work using oil pastels

Oil pastels are bright, oil-based crayon that is used as a painting and drawing medium
Oil pastels can be applied thickly, overlapping to blend colours.
White can also be used to blend.
Clean the end of the pastel to avoid colour contamination

E What is a pinch pot and how to make one

A pinch pot is A small vessel created inserting the thumb into a ball of clay then through 'pinching' the clay into the desired shape.
A successful pinch pot has even thickness walls, and a smooth finish.
The wet clay can be decorated by additive or subtractive methods

F. How to use glazes and oxides

oxide 	Powder made from minerals Mixed with water and applied to the bisque fired clay Highlights the texture in the clay surface Can be applied thickly or thinly to get different effects
glaze 	Coloured liquid applied to bisque fired clay Can be applied with or over oxides Gives the clay a shiny finished once fired a second time Usually applied in layers

G What is texture?

Texture is the surface quality of a particular surface – how it feels to the touch
Actual texture is what it actually feels like
Visual or implied texture is when a surface appears to have texture but in reality it doesn't

H How to produce a mixed media outcome

A mixed media artwork uses multiple different materials rather than just one
We used collage, ink and pen to create ours

Step 1	Lay out your drawing using pencil lightly
Step 2	Add newspaper collage
Step 3	Apply an ink wash using varied colurs
Step 4	Add tissue paper collage over the wash in places
Step 5	Use black ink or pen to go over your drawing, adding detail and texture using mark making

Year 7 Project 3 – Under the Sea

What we are learning this term:

A. About the illustrator Ernst Haeckel and his work
B. How to use the grid method for accuracy
C. Drawing from observation of primary sources
D. How to work using oil pastels
E. How to make a simple clay pinch pot
F. How to decorate clay using glazes and oxides
G. What is texture
H. How to produce a mixed media outcome

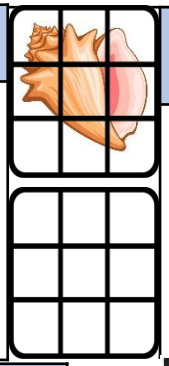
Key word	Key definition
illustration	
observation	
source	
texture	
tone	
outcome	

A. Who is Ernst Haeckel and what are the characteristics of his work?

Who?	
What?	
Why?	

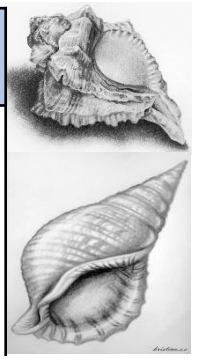
B. *How to use the Grid Method for accurate drawing*

1) Use a …….. to draw an equally spaced grid onto your image
2) Draw an identical grid …….. onto paper
3) Draw in the main ……..of your image, focusing on one square at a time Use a ruler to help you …….. the positioning of lines if needed
4) Add main details before …….. he grid on the paper
5) Add fine …….. and build in ……..



C Drawing primary sources from observation

Drawing from a primary source means……
Observe the objects ……
Lay out the basic ……you can see
……and add ……
Add …… to show how light is hitting the object(s)



D How to work using oil pastels

Oil pastels are bright, oil-based crayon that is used as a painting and drawing medium
Oil pastels can be applied thickly, overlapping to blend colours.
White can also be used to blend.
Clean the end of the pastel to avoid colour contamination

F. How to use glazes and oxides

oxide

Powder made from …….
Mixed with ……..and applied to the bisque fired clay
Highlights the …… in the clay surface
Can be applied ……or …… to get different effects

glazes

Coloured liquid applied to bisque fired clay
Can be applied with or over oxides
Gives the clay a shiny finished once fired a second time
Usually applied in layers

H How to produce a mixed media outcome

A mixed media artwork uses multiple different materials rather than just one
We used collage, ink and pen to create ours

Step 1	
Step 2	
Step 3	
Step 4	
Step 5	

E What is a pinch pot and how to make one

A pinch pot is
……
……
A successful pinch pot has
……
……
The wet clay can be decorated by
……
……

G What is texture?

Texture is
……
……
Actual texture is
……
……
Visual or implied texture is
……
……

Year 7 PRODUCT DESIGN Rotation Knowledge Organiser

What we are learning this term:

A. Workshop Tools **B. Materials** **C. Modelling** **D. Key Words** **E. Evaluating Work**

A. Workshop Tools

Steel Rule	Wooden Vice	Clamp	Bench Hook	Tenon Saw	Pillar Drill	Bandfacer
						

B. Materials

Timbers come from **trees**

Scots pine – which you used for your maze frame – is a **softwood**

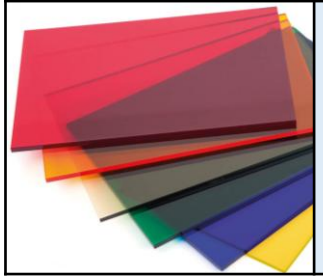
Softwoods come in planks and boards

Manufactured Boards come from **wood pulp**

Plywood – which you used as your base, insert and maze walls – is a **manufactured board**

Manufactured Boards come in sheets

Polymers come from **crude oil**



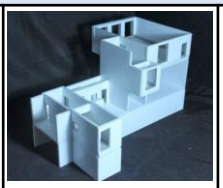
Acrylic – which you used as your lid for your maze – is a **polymer**

Polymers come in sheets, graduals and filament

C. Modelling

Creating a 3D representation of your product before you manufacture it.

You can use a variety of different materials and computer programs to create a mock up model or prototype such as;

Cardboard	Foamboard	Scrap Wood
		3D Printing	2D Design	Solidworks

Modelling is used to test a product before manufacture, to see what works and what doesn't.

Advantages	Disadvantages
Allows a designer to physically handle or view from all sides	Can be time-consuming and complicated
Changes can be made quickly and easily	Testing can be unreliable as they don't use the same materials as the end product

D. Key Words

Specification	A specific list of things that your product should be or do.
Modelling	A way of making a 3D representations of your proposed design. To see what went well and how it can be improved.
Sustainable	Limited negative impact on the environment.
Manufacture	Making a product using tools and machinery.

E. Evaluation of Products

Evaluate – To judge and give an opinion.

Designers will evaluate their products to see what works well and what doesn't. This way they can make any improvements on their current designs to ensure a high-quality product.

When writing an evaluation it is important to include the following three things:

1. Positives – what works well
2. Negatives – what doesn't work well
3. Possible improvements – how could you make it better?

For example:

My maze looks really fun and challenging to play. However, when tested the model version of my game, it was too difficult to complete. One improvement I could make is by taking away some of the traps or moving some of the walls around, so that it is more fun to play.

Year 7 PRODUCT DESIGN Rotation Knowledge Organiser

What we are learning this term:

A. Workshop Tools **B. Materials** **C. Modelling** **D. Data Analysis & Evaluation**

A. Workshop Tools

B. Materials

Timbers come from _____

Scots pine – which you used for your maze frame – is a **softwood**

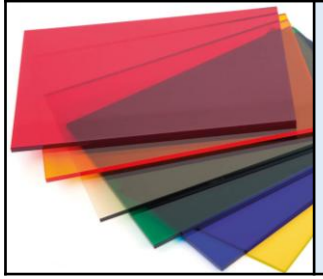
Softwoods come in _____ and _____

Manufactured Boards come from _____

Plywood – which you used as your base, insert and maze walls – is a **manufactured board**

Manufactured Boards come in _____

Polymers come from _____



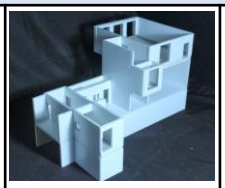
Acrylic – which you used as your lid for your maze – is a **polymer**

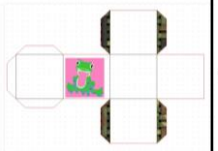
Polymers come in _____, _____ and _____

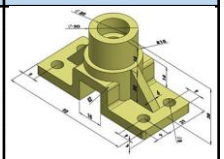
C. Modelling

Creating a _____ _____before you manufacture it.

You can use a variety of different materials and computer programs to create a mock up model or _____ such as;







Modelling is used to _____ before manufacture, to see what works and what doesn't.

Advantages	Disadvantages

D. Key Words

Specification

Modelling

Sustainable

Manufacture

E. Evaluation of Products

Evaluate _____

Think back to your completed handheld maze hand game. Evaluate one positive aspect of it, one negative aspect of it and an improvement you would like to have made if you had time.

_____

_____

_____

_____

_____

_____

_____

Possible sentence starters:

- One thing that was successful…….
- One thing that I had issues with was……
- If I had more time, I could improve this by……

Y7 Food technology

What we are learning this term:

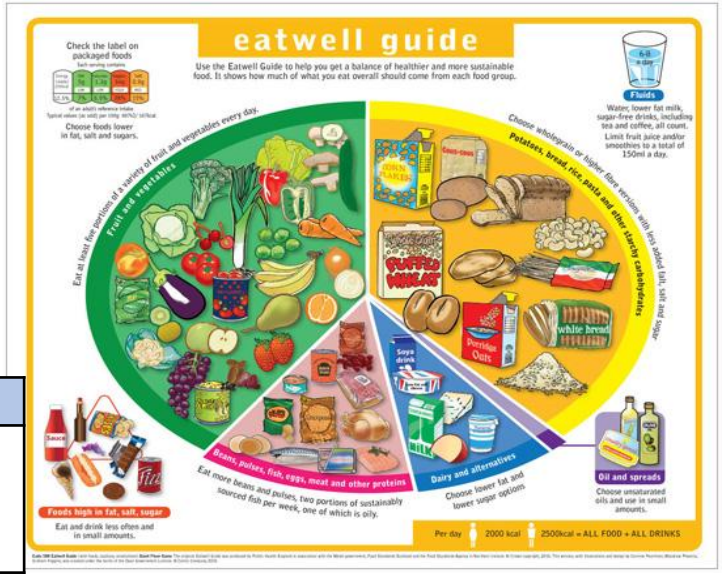
1. Health, safety and hygiene in the kitchen
2. The Eatwell guide and nutrients
3. Storing food safely
4. Food origins
5. Food fortification and modification
6. Practical skills

A. What are the nutrients required in the diet?

Carbohydrates	To give the body energy e.g bread.
Protein	To grow and repair the body, and to give energy e.g eggs.
Fats	To insulate your body, give you energy, and protect your organs i.e butter.
Vitamins	For general body health and function i.e carrots for eyesight.
Minerals	For general body health and function i.e iron to make blood cells.

B. What are the 5 different sections of the Eatwell plate?

1 **Fruit and Vegetables** – provides minerals, vitamins & fibre
2 **Carbohydrates** – provides carbs and fibre
3 **Protein** - provides protein, omega 3, come vitamins
4 **Dairy** - provides vitamins, minerals (calcium)
5 **Fats and Oils**



C. Storing food safely

Perishable foods should be stored out of the **temperature danger zone** to reduce the risk of **food poisoning.**
Hot foods should be kept above 63ºC and cold foods should be kept below 5ºC.

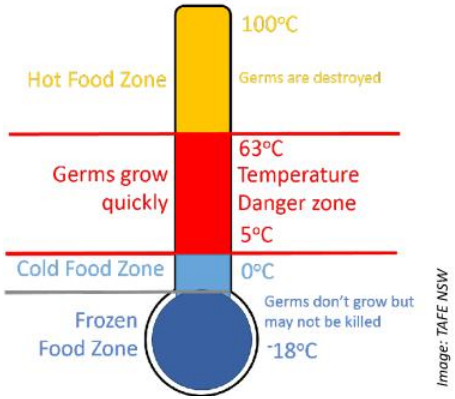


Image: TAFE NSW

C. Food origins

Grown food- plants i.e wheat	**Reared food** – animals kept on a farm, bred and raised for use i.e cows to give milk	**Caught food –** animals hunted in the wild i.e fish, game animals
Intensive farming – bad for the environment, uses chemical fertilisers and pesticides. Gives a high yeild (amount of food). **Organic farming** – "natural" farming, is slower and more expensive to do.	**Intensive (battery) farming** – animals are kept indoors all year round in small cages, poor treatment. Lots of food produced. **Free range** – animals have a large amount of space and outdoor space, good living conditions. Expensive and slow.	**Trawling –** large nets dragged through the sea, lots of bycatch (unwanted fish) and damages habitats. **Line caught –** catching one fish at a time on a fishing line. Much slower and more expensive.

E. Keywords

Hygiene	A method of keeping yourself and equipment clean
Cross contamination	The transfer of contaminants onto food through either the hands, the equipment or the surfaces. Causes food poisoning.
Spoilage	When food becomes unsafe to eat i.e rot, mould.
Perishable food	Food that spoils if not kept in the fridge or freezer e.g ham.
Fibre	Foods that keep your digestive system healthy and avoid constipation.
Allergen	A substance (sometimes food) that causes an immune system response that can be fatal i.e throat swelling up. Nuts are common allergens.
Intolerance	When the body cannot digest a food and rejects it i.e vomiting, diarrhea. Many people are lactose intolerant (milk intolerance).
Coeliac	When someone cannot eat gluten (wheat), similar to an intolerance but more dangerous.
Vegan	When someone does not eat anything that comes from an animal including eggs, milk, honey.

C. Food fortification and modification

Fortify – to make stronger/better
Food fortification – adding extra nutrients to food to improve how nutritious it is
Examples: butter with added vitamins, cereal with added iron and vitamins

Modification – to change the properties of something
Additives – chemicals added to food, can ne natural or artificial
Examples – flavourings, colourants, preservatives, stabilisers
Genetically modified (GM) - the genes (DNA) of the crop or animal have been changed to improve their yeild i.e more seeds.

Y7 Food technology

YEAR 7 GRAPHIC COMMUNICATION

What are we learning this term?

A Personification	B Typography	C Computer skills	D Key words	E Evaluation

A | Personfication

What is personification?

Personification makes sentences more exciting by:
•describing objects as if they are *people*
•describing objects as if they have *feelings*

How does Paul Thurlby use personification?
Paul Thurlby personifies his letters by giving the turning the letters that he works with into characteristics so that you can clearly see an emotion.

B | Draw the letter A in the following font styles. Write the description of the font style too.

Serif: Serif is a traditional style font. It usually has flicks on the end of each letter.	A
Sans Serif: Sans serif fonts are modern in style; Sans serif fonts good for large pieces of text.	A
Script: Script font often resembles everyday handwriting.	A
Decorative: decorative fonts are unique in style and have an artistic flair. They are often hard to read.	A

C | Computer skills

What is the shortcut for copy?
Ctrl + C
What is the shortcut for paste?
Ctrl + V
What does this symbol stand for?

Photoshop

What does this symbol mean?

Cropping

D| Key words

Graphics	Visual images or designs on a surface which communicate a message such as a brand advertisement or logo.
Typography	The arrangement of type to make written language legible.
Font	The term 'font' refers to a specific style of typeface such as its size and weight, it can come in regular, **bold** or *italic*.
Photoshop	A software for editing photos and graphics. It is used for image editing, making illustrations or web design.

E | Evaluation

Evaluation: To judge or give an opinion

Designers will evaluate their products to see what works well and what doesn't. This way they can make any improvements on their current designs to ensure a high-quality product.

When writing an evaluation it is important to include the following three things:

1. Positives – what works well
2. Negatives – what doesn't work well
3. Possible improvements – how could you make it better?

For example:
My word sticker looks great, the colours are bright which appeals to the audience. However, some of the letters are hard to read. One improvement I could make is to simplify the personification on some of the letters to make the final word clearer and easier to read.

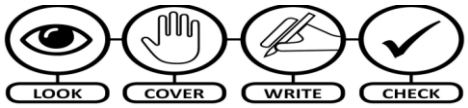
Year 7: Lets Play Keyboard!

Term 4

A – What we are learning about this term…

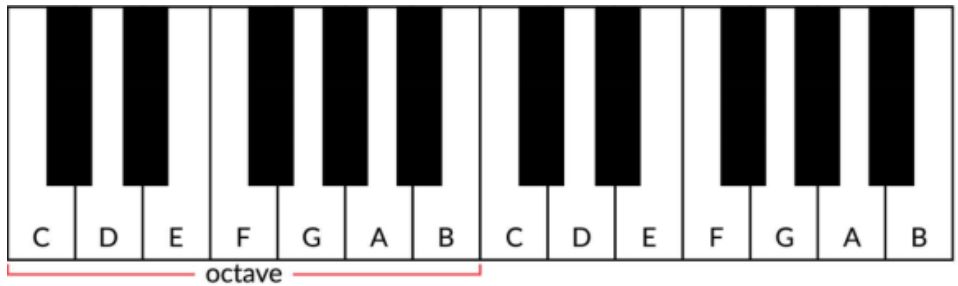
1. Treble Clef Notation
2. Hand Positions on the Keyboard
3. Sharps, Flats and Natural Notes
4. Chords on the Keyboard



B – Keywords

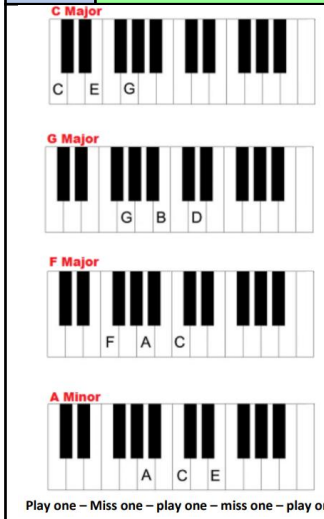
Stave	Name given to 5 lines and 4 spaces where musical notes are written.
Treble Clef	Symbol used to show high pitched notes.
Sharp	When a note is raised by a semitone e.g. C to C sharp.
Flat	When a note is lowered by a semitone e.d. B to B flat.
Chord	3 notes played at the same time.
Middle C	Note in the middle of a keyboard – Played with your thumb of your right hand.

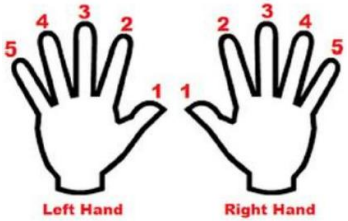
C – Layout of a Keyboard/Piano



A piano or keyboard is laid out with **WHITE KEYS** and **BLACK KEYS** (as above). **C** is to the left of the two **BLACK KEYS** and the notes continue to **G** when they go back to **A** again. Notes with the same letter name/pitch are said to be an **OCTAVE** apart. **MIDDLE C** is normally in the centre of a piano keyboard.

D – Keyboard chords - Left hand – Right hand





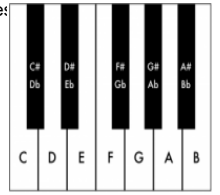
Play one – Miss one – play one – miss one – play one

E – Black Keys and Sharps and Flats

There are five different black notes or keys on a piano or keyboard. They occur in groups of two and three right up the keyboard in different pitches. Each one can be a **SHARP** or a **FLAT**. The **#** symbol means a **SHARP** which raises the pitch by a semitone (e.g. C# is higher in pitch(to the right) than C). The *b* symbol means a **FLAT** which lowers the pitch by a semitone (e.g. B*b* is lower in pitch(to the left) than B).

Each black key has two names – C# is the same as D*b* – there's just two different ways of looing at it!

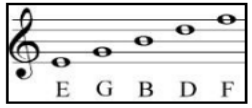
Remember, black notes or keys that are to the **RIGHT** of a white note are called **SHARPS** and black notes to the **LEFT** of a white note are called **FLATS**.



F – Treble Clef & Treble Clef Notation

A **STAVE** or **STAFF** is the name given to the five lines where musical notes are written. The position of notates on the stave or staff shows their **PITCH** (how high or low a note is). The **TREBLE CLEF** is a symbol used to show high-pitched notes on the stave and is usually used for the right hand on a piano or keyboard to play the **MELODY** and used by high pitched instruments such as the flute and violin. The stave or staff is made up of 5 **LINES** and 4 **SPACES**.

Every Green Bus Drives Fast. Notes in the **SPACES** spell **"FACE"**



Notes from **MIDDLE C** going up in pitch (all of the white notes) are called a **SCALE**.

G – Describing music – MAD T SHIRT

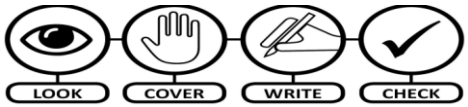
M	A	D	T	S	H	I	R	T
Melody	**Articulation**	**Dynamics**	**Texture**	**Structure**	**Harmony/Tonality**	**Instruments**	**Rhythm**	**Tempo**
The tune	How notes are played	Loud/quiet and any other volume changes	Layers of sound / how they fit together	The sections and organising	Chords used / the mood	Types of instruments heard	Pattern of notes	The speed

Year 7: Lets Play Keyboard!

Term 4

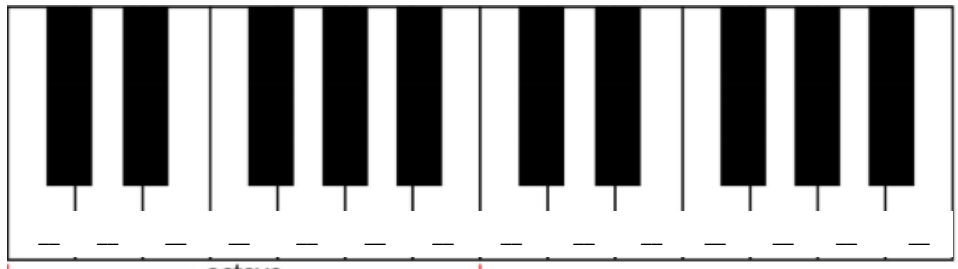
A — What we are learning about this term…

1
2
3
4

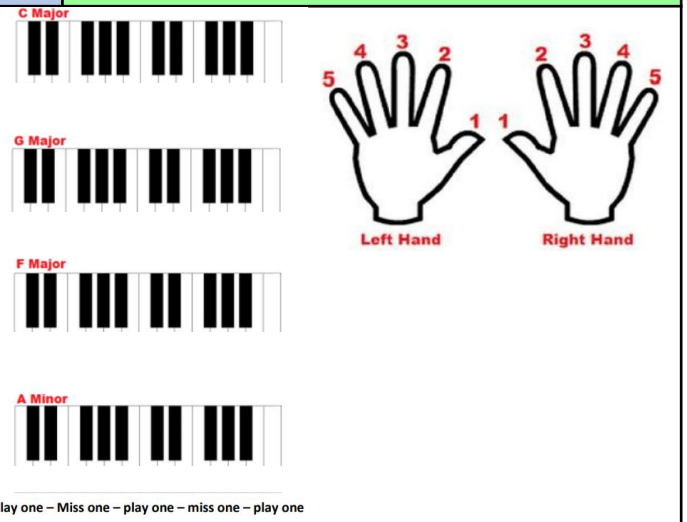


B — Keywords

C — Layout of a Keyboard/Piano

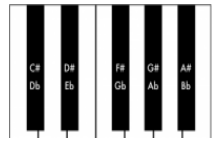


D — Keyboard chords - Left hand – Right hand



E — Black Keys and Sharps and Flats

There are five different black notes or keys on a piano or keyboard. They occur in groups of two and three right up the keyboard in different pitches. Each one can be a _____ or a **F**_____. The __ symbol means a **SHARP** which raises the pitch by a semitone (e.g. C# is higher in pitch(to the right) than C). The ___ symbol means a **F**_____ which lowers the pitch by a semitone (e.g. B*b* is lower in pitch(to the left) than B).
Each black key has two names – C# is the same as D*b* – there's just two different ways of looing at it!
Remember, black notes or keys that are to the **RIGHT** of a white note are called **SHARPS** and black notes to the **LEFT** of a white note are called **FLATS**.



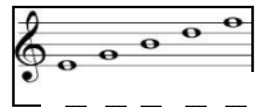
F — Treble Clef & Treble Clef Notation

What is the name of the 5 lines and 4 spaces? S_____

Musical notation shows us how high or low the P_____ of notes are.

High pitch notes are shown by using the symbol T_____ C_____

Every Green Bus Drives Fast. Notes in the **SPACES** spell '_ _ _ _'



Notes from **MIDDLE C** going up in pitch (all of the white notes) are called a **SCALE**.

G — Describing music – MAD T SHIRT

M	A	D	T	S	H	I	R	T
M_____	A_____	D_____	T_____	S_____	H_____/T_____	I_____	R_____	T_____

Drama – Year 7 Term 4

Melodrama

"MELO" – Music "DRAMA" – Drama . A combination of acting and music , with sensational stories where the villain is always overcome by the hero.

Historical context

The INDUSTRIAL REVOLUTION 1800's
Shift from rural to urban living.
Scientific discoveries led to machines which meant that some people became extremely rich and some became extremely poor.

This led to MELODRAMA being created.
People needed hope .
They created stories where the villain (based on landlords) were always beaten by the hero (everyday man.)

Stock characters

Hero
Heroine
Villain
Side Kick

Key features of MELODRAMA

Chronological stories
Plot always centred around the villain.
Good always wins
MUSIC

Stereotypes - widely held but fixed and oversimplified image or idea of a particular type of person or thing.

Performance Skills

Characterisation: Using a range of performance skills to create a character that is different to yourself.

Posture: The way that you sit or stand. The alignment of your spine.

Gesture: A movement (usually of the arm/hand) that communicates a specific meaning.

Facial Expression: Using your face to show how a character is feeling.

Vocals - Pitch: How high or low your voice is.

Pause/Stillness: A moment of silence, where you are not moving in any way

Vocals - Pace: The speed that you speak at.

Exaggeration: Making your vocals or physicality more extreme/bigger.

SWINDON ACADEMY READING CANON

Year 7

- The Canterbury Tales
- War Horse
- Adventures of a Young Naturalist
- A Monster Calls
- The Pearl
- Number the Stars
- The Hunger Games
- Chinese Cinderella
- Sir Gawain and the Green Knight

Year 8

- The Dark Lady
- Trash
- The Diary of a Young Girl
- Ghost Boys
- The Amazing Maurice
- The Bone Sparrow
- Salt to the Sea
- The Giver
- Witch Child

Year 9

- Skin
- I am Malala
- Noughts and Crosses
- Liccle Bit
- Fahrenheit 451
- The Black Flamingo
- One
- Simon vs the Homo Sapiens Agenda
- Long Way Down
- Northern Lights
- The Boy Who Steals Houses
- The Woman in Black
- The Book Thief

Year 10

- The Underground Railroad
- The Curious Incident of the Dog in the Night-Time
- The Hate U Give
- Rani and Sukh
- Pigeon English
- The Boxer
- 1984
- Orangeboy
- The Outsiders
- The Art of Being Normal
- A Selection of Short Stories
- To Kill a Mockingbird
