

100% book - Year 7 Booster

Aim to memorise 100% of the knowledge on these Knowledge Organisers.

Term 1

Swindon Academy 2026-27

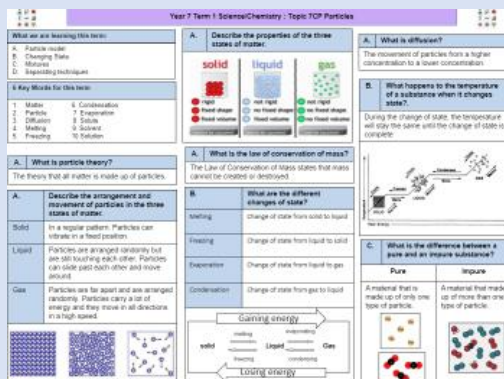

Name:	
Tutor Group:	
Tutor & Room:	

"If you are not willing to learn, no one can help you.

If you are determined to learn, no one can stop you."

How to use your 100% book of Knowledge Organisers and Quizzable Organisers

Knowledge Organisers

Knowledge Organisers contain the essential knowledge that you **MUST** know in order to be successful this year and in all subsequent years.

They will help you learn, revise and retain what you have learnt in lessons in order to move the knowledge from your short-term memory to long-term memory.

Quizzable Knowledge Organisers

These are designed to help you quiz yourself on the essential Knowledge.

Use them to test yourself or get someone else to test you, until you are confident you can recall the information from memory.

Expectations for Prep and for using your Knowledge Organisers

1. Complete all prep work set in your subject prep book.
2. Bring your prep book to every lesson and ensure that you have completed all work by the deadline.
3. Take pride in your prep book – keep it neat and tidy.
4. Present work in your prep book to the same standard you are expected to do in class.
5. Ensure that your use of SPAG is accurate.
6. Write in blue or black pen and sketch in pencil.
7. Ensure every piece of work has a title and date.
8. Use a ruler for straight lines.
9. If you are unsure about the prep, speak to your teacher.
10. Review your prep work in green pen using the mark scheme.

Top Tip

Don't write on your Quizzable Knowledge Organisers! Quiz yourself by writing the missing words in your prep book. That way you can quiz yourself again and again!

How do I complete Knowledge Organiser Prep?

Step 1

Check Epraise and identify what words /definitions/facts you have been asked to learn.
Find the Knowledge Organiser you need to use.

The screenshot shows the Epraise website interface. On the left is a 'Planner' with a calendar for May 2020. On the right is a 'Knowledge Organiser' for Year 7 Science, showing various topics like 'What is particle theory?', 'What is the law of conservation of mass?', and 'What are the different states of matter?'.

Step 2

Write today's date and the title from your Knowledge Organiser in your Prep Book.

The screenshot shows a knowledge organiser for 'What is particle theory?' and 'What is the law of conservation of mass?'. It includes diagrams of solid, liquid, and gas states of matter. Handwritten notes include the date '29th May 2020' and the title 'Particle theory'.

Step 3

Write out the keywords/definitions/facts from your Knowledge Organiser in FULL.

Handwritten notes on lined paper. The date '29th May 2020' is written at the top. The title 'Properties of the states of matter' is underlined. The notes define 'Particle theory' as 'all matter is made of particles'. It then defines 'Solid' as 'regular pattern particles vibrate in fixed position', 'Liquid' as 'particles are arranged randomly but are still touching each other. Particles can slide past each other and move around.', and 'Gas' as 'Particles are far apart and are arranged randomly. Particles carry a lot of energy'.

Step 4

Read the keywords/definitions/facts out loud to yourself again and again and write the keywords/definitions/facts at least 3 times.

Handwritten notes on lined paper, repeating the definitions from Step 3 three times. Each definition is written in full: 'Solid = regular pattern particles vibrate in fixed position', 'Solid = regular pattern particles vibrate in fixed position', and 'Solid = regular pattern particles vibrate in fixed position'.

Step 5

Open your quizzable Knowledge Organiser. Write the missing words from your quizzable Knowledge organiser in your prep book.

The screenshot shows a quizzable knowledge organiser for 'What is particle theory?' and 'What is the law of conservation of mass?'. It includes diagrams of solid, liquid, and gas states of matter. Handwritten notes include the date '29th May 2020' and the title 'Particle theory'. The notes also include 'Self quizzing' and 'Arrangement/movement of matter'.

Step 6

Check your answers using your Knowledge Organiser. Repeat Steps 3 to 5 with any questions you got wrong until you are confident.

Handwritten notes on lined paper, repeating the definitions from Step 3. The notes include corrections: 'Particle theory = all matter is made of particles', 'Solid = regular pattern particles vibrate in fixed position', 'Liquid = particles are arranged randomly but are still touching each other. Particles can slide past each other and move around.', and 'Gas = Particles are far apart and are arranged randomly. Particles carry a lot of energy'.

Make sure you bring in your completed Prep notes to demonstrate that you have completed your prep.

What we are learning this term:	Vocabulary: Key Words	Characters in Oliver Twist
- An introduction to life in Victorian London - An introduction to the life of Charles Dickens - An introduction to the workhouse and the Poor Law - The story and moral of Oliver Twist - Key characters and quotations - How to write a simple analytical paragraph	morality – a code of right and wrong. People who try to be good can be called moral and people who do bad things can be called immoral.	Oliver He is a 'pale, thin' orphan who is treated badly by almost everyone he meets. He tries his best to be a good person and experiences 'horror and alarm' whenever he sees crimes being committed.
Writing Analytically	vulnerable – in a situation in which you could be easily harmed. People living on the streets are vulnerable.	Mr. Bumble The man who runs the workhouse and gives Oliver his name. He is 'a fat man' who enjoys power and doesn't care about the people beneath him.
What three things must a topic sentence do? – be accurate, focus on one thing, answer the question	brutal – very violent or cruel.	Noah Claypole A 'malicious and ill-conditioned' boy who bullies Oliver at the undertakers. He eventually runs away to London and joins the same gang as Oliver.
What is a quotation? - a sentence or phrase copied exactly from what someone has said or written. To quote means to copy exactly what someone has said or written.	corrupt – a word used to describe a person who uses their power in a dishonest or illegal way in order to make life better for themselves.	Fagin An old man who runs the gang of pickpockets. He seems kind but his 'villainous-looking and repulsive face' reflects his selfish nature as he gets young boys to do his dirty work for him.
What do you do once you have written a topic sentence and matching quote? - explore how the quote proves the point in as much detail as you can.	villain – a 'baddie' who harms other people or breaks the law to get what they want.	Jack Dawkins (The Artful Dodger) A young boy who introduces Oliver to Fagin's gang who has 'all the airs and manners of a man'. He's confident and cunning.
Plot Breakdown of Oliver Twist	malicious – meant to hurt or upset someone.	Bill Sikes A 'rough man' who has been a criminal for many years. He beats his dog viciously and brutally kills his girlfriend, Nancy.
Oliver is born in the workhouse. When he is a bit older he is nominated to ask for more food because the boys are starving.	victim – someone who has been harmed, often by other people.	Nancy Bill's girlfriend who risks her life to help Oliver escape from the gang. She loves Bill even though he treats her abusively and she feels guilty about the life of crime she has led.
He is kicked out of the workhouse and sold to the Sowerberry family to be an undertaker's apprentice. He's bullied by Noah, they fight and he is locked up.	exploit – taking advantage of someone to benefit from them.	Mr. Brownlow A wealthy older gentleman who takes Oliver in and looks after him. He believes in Oliver's goodness even when it looks like Oliver has stolen from him and eventually finds out the truth about Oliver's parents.
Oliver runs away to London, meets Dodger and is introduced to Fagin's gang.	naïve – If someone is naïve if they don't have experience of how complicated life can be and therefore trust people too much.	
Oliver is taken out with the gang and is horrified to see Dodger steal a gentleman's handkerchief. Oliver is wrongly arrested for the theft.	society – the people who live in a certain area. This could be a country, town or small group.	
The gentleman, Mr. Brownlow, takes pity on Oliver and takes him in. The gang plot to get him back in case he reveals information about them.	workhouse – a place where people who couldn't support themselves were sent to live and work.	
Oliver is abducted by the gang whilst running an errand for Mr. Brownlow.	Background Information	
Oliver is used by Sikes in a burglary. They fail and Sikes runs away. Oliver is left behind but the people who live there feel sorry for him and look after him. They are called Fred and Rose Maylie.	'Oliver Twist' was written in 1837-39. This is the Victorian era.	
When Bill and Fagin realise what has happened, they plot to catch Oliver again. Nancy overhears and visits Mr. Brownlow to warn him.	It was written by Charles Dickens.	
Fagin tells Bill about Nancy's betrayal and Bill murders her. Fagin is discovered and sent to prison and Bill dies trying to run away.	In was published chapter by chapter in a periodical (magazine).	
Oliver discovers who his parents were and joins Mr. Brownlow and the Maylies to live happily ever after.	Charles Dickens had to work in harsh conditions as a child when his father was sent to prison.	
	Dickens wanted to criticise a new change to The Poor Law which happened in 1834 and created more workhouses and show how hard life was for poor people.	

What we are learning this term:	Vocabulary: Key Words	Characters in Oliver Twist
- An introduction to life in Victorian London - An introduction to the life of Charles Dickens - An introduction to the workhouse and the Poor Law - The story and moral of Oliver Twist - Key characters and quotations - How to write a simple analytical paragraph	morality –	Oliver He is a ‘pale, thin’ _____ who is treated badly by almost everyone he meets. He tries his best to be a _____ person and experiences ‘horror and alarm’ whenever he sees _____ being committed.
Writing Analytically	vulnerable –	Mr. Bumble The man who _____ and gives Oliver his name. He is ‘a fat man’ who enjoys _____ and doesn’t _____ about the people _____ him.
What three things must a topic sentence do? – _____	brutal –	Noah Claypole A ‘malicious and ill-conditioned’ boy who _____ Oliver at the undertakers.
What is a quotation? - a sentence or phrase copied exactly from what someone has said or _____. To quote means to _____ what someone has said or written.	corrupt –	Fagin An old man who runs the _____. He seems kind but his ‘villainous-looking and repulsive face’ reflects his _____ as he gets young _____ to do his _____ for him.
What do you do once you have written a topic sentence and matching quote? - explore how the quote proves _____	villain –	Jack Dawkins (The Artful Dodger) A young boy who introduces _____ to Fagin’s _____ who has ‘all the airs and manners of a man’. He’s _____ and cunning.
Plot Breakdown of Oliver Twist	malicious –	Bill Sikes A ‘rough man’ who has been a _____ for many years. He _____ his _____ viciously and brutally _____ his girlfriend, _____.
Oliver is born in the workhouse. When he is a bit older he is nominated to _____	victim –	Nancy Bill’s _____ who risks her _____ to help _____ escape from the _____. She loves _____ even though he treats her _____ and she feels _____ about the life of _____ she has led.

He’s bullied by _____ they fight and he is locked up.	exploit –	Mr. Brownlow A wealthy older _____ who takes _____ in and looks after him. He believes in Oliver’s goodness even when it looks like Oliver has stolen from him and eventually finds out the truth about Oliver’s parents.
Oliver runs away to London, meets Dodger and is introduced to _____.	naïve –	
Oliver is taken out with the gang and is horrified to see Dodger steal a gentleman’s handkerchief. Oliver is wrongly arrested for the theft.	society –	
The gentleman, Mr. Brownlow, takes pity on Oliver and takes him in. The gang plot to get him back in case he reveals _____ about them.	workhouse –	
Oliver is abducted _____ whilst running an errand for Mr. Brownlow.	Background Information	
Oliver is used by Sikes in a burglary. _____	‘Oliver Twist’ was written in _____. This is the _____ era.	
When Bill and Fagin realise what has happened, they plot to catch Oliver again. _____	It was written by _____.	
Fagin tells Bill about Nancy’s betrayal and _____ her. Fagin is discovered and sent to prison and Bill dies trying to run away.	In was published _____ by _____ in a _____ (magazine).	
Oliver _____.	Charles Dickens had to work in _____ conditions as a _____ when his father was sent to prison.	
	Dickens wanted to _____ a new change to The _____ which happened in _____ and created more _____ and show how hard life was for _____ people.	

**What we are learning this term:**

- A. Particle model
- B. Changing State
- C. Mixtures
- D. Separating techniques

7 Key Words for this term

- 1. Distillation
- 2. Separation
- 3. Solution
- 4. Solute
- 5. Solvent
- 6. Chromatography
- 7. Properties

A. What is particle theory?

The theory that all matter is made up of particles.

A.	Describe the arrangement and movement of particles in the three states of matter.
Solid	In a regular pattern. Particles can vibrate in a fixed position.
Liquid	Particles are arranged randomly but are still touching each other. Particles can slide past each other and move around.
Gas	Particles are far apart and are arranged randomly. Particles store a lot of energy, they move in all directions at a high speed.

Solid

Liquid

Gas

A. Describe the properties of the three states of matter.**A. What is the law of conservation of mass?**

The Law of Conservation of Mass states that mass cannot be created or destroyed.

B.	What are the different changes of state?
Melting	Change of state from solid to liquid
Freezing	Change of state from liquid to solid
Evaporation	Change of state from liquid to gas
Condensation	Change of state from gas to liquid

**A. What is diffusion?**

The movement of particles from an area of higher concentration to an area lower concentration.

B. What happens to the temperature of a substance when it changes state?

During the change of state, the temperature will stay the same until the change of state is complete

**C. What is the difference between a pure and an impure substance?**

Pure	Impure
A material that is made up of only one type of particle.	A material that made up of more than one type of particle.

**What we are learning this term:**

- A. Particle model
- B. Changing State
- C. Mixtures
- D. Separating techniques

7 Key Words for this term

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.

A. What is particle theory?**A. Describe the arrangement and movement of particles in the three states of matter.**

**A. What is diffusion?****B. What happens to the temperature of a substance when it changes state?.****C. What is the difference between a pure and an impure substance?**

Pure

Impure

D.	What is a mixture?
A mixture contains different elements or compounds that are not chemically joined to each other.	

D.	What happens when a substance dissolves?
During dissolving, the solvent particles surround the solute particles and move them away from each other, so they are spread out in the solvent.	

D.	What are the different parts of a solution?
Solute	The substance that dissolves into the solvent.
Solvent	The liquid that the solute dissolves into.

D.	What is the difference between a soluble substance and an insoluble substance?
Soluble	A substance that dissolves into a solvent.
Insoluble	A substance does not dissolve into a solvent.

D.	How are different mixtures separated?		
Method	Used to separate:	Apparatus	
Evaporation	Soluble substances from a solution		
Filtration	An insoluble solid from a liquid		
Distillation	The parts of a liquid solution according to their boiling point.		
Chromatography	Mixtures of solutes according to their solubilities in a solvent.		

D.	What is a mixture?

D.	What happens when a substance dissolves?

D.	What are the different parts of a solution?
Solute	
Solvent	

Solution

D.	What is the difference between a soluble substance and an insoluble substance?
Soluble	
Insoluble	

D.	How are different mixtures separated?		
Method	Used to separate:	Apparatus	
Evaporation			
Filtration			
Distillation			
Chromatography			

Introduction to geographical skills

Maps and symbols

OS maps use symbols to show human and physical features. Maps have a **title**, **labels**, a **compass rose**, a **scale** and a **key**.

Key vocabulary

- **Continent** – One of the seven large land masses on Earth
- **Longitude** – The lines down the earth showing east or west
- **Latitude** – The lines across the earth showing north and south
- **Eastings** – The grid reference along the bottom
- **Northings** – The grid reference up the side
- **Contour lines** – Brown lines on a map that show height
- **Relief** – The height of the land
- **Topography** - The shape and physical features of an area
- **Altitude** - Height above sea level (measured in metres).
- **OS map** – Ordnance Survey is a map of areas of the UK

Four-figure grid references

Four-figure grid references are used to describe locations on an OS map.

1. Look at the bottom-left corner of the square.
2. Find the **easting**.
3. Find the **northing**.
4. Write down the four-figure grid reference.

Relief

Height on a 2D map can be shown using three methods:

Spot heights – a dot giving the exact height of a specific point.

Colour layering - different heights are shown by bands of different colours.

Contour lines – brown lines connecting areas of the same height.

Introduction to geographical skills

Continents, oceans and countries in the UK

Longitude and latitude

Longitude

Latitude

Introduction to global climate

Climate zones

Climate zones are areas in the world that have a similar climate. There are several major climate zones in the world, and the main six are shown on this map. The climate zones generally group together horizontally, following lines of latitude.

Key Vocabulary

- **greenhouse gases** – gases such as carbon dioxide that trap heat within the atmosphere
- **the greenhouse effect** – the natural warming of the planet to its habitable temperature, caused by trapping heat in the Earth's atmosphere
- **the enhanced greenhouse effect** – the unnatural warming of the Earth due to increased greenhouse gases in the atmosphere
- **global warming** – the increase of average temperatures on Earth; this happens naturally but happens faster due to the enhanced greenhouse effect
- **climate change** – the change in the Earth's long-term weather patterns, including precipitation, wind and temperature
- **fossil fuel** – a (chemical) store of energy formed over millions of years from dead plants and animals

Biomes

Biomes are areas of the world that, because of similar climates, have similar landscapes and wildlife. Biomes are shown on the map.

Introduction to global climate

Global warming

The **greenhouse effect** is the **natural process**, which has always taken place, that keeps the Earth warm. Without it, the Earth would be too cold to live on.

The light and heat energy are trapped in the atmosphere by greenhouse gases, such as carbon dioxide. This warms the Earth.

The **enhanced greenhouse effect** causes an **unnatural increase in temperature**. Human activities (such as burning fossil fuels, transport, waste, agriculture, deforestation) increase the amount of greenhouse gases in the atmosphere. The Earth warms more quickly, and global warming increases.

Accelerated global warming can also lead to other changes in the Earth's long-term weather patterns, such as precipitation, wind and storms. The changes to the Earth's wider climate – not just temperature – are called **climate change**.

The causes of climate change

Climate change is caused by:

- burning fossil fuels for transport and electricity generation, which releases greenhouse gases
- deforestation, which reduces the absorption of greenhouse gases
- agriculture and waste disposal, which release greenhouse gases

deforestation

electricity generation

transport

agriculture

waste

The effects of climate change

Climate change can cause:

- more extreme weather events, such as heatwaves
- melting sea ice and ice caps
- rising sea levels and flooding of coastal areas

Unit 1 Worldviews c. 1000

A. Keywords:

- 1. Abbasid dynasty (n)** - The line of rulers of the Islamic Empire from 750 to 1258.
- 2. Astrolabe (n)**- A metal instrument that uses the stars to find direction and position.
- 3. Astrology (n)**- Studying the movement of stars and planets and interpreting their influence on the world.
- 4. Astronomy (n)**- The study of space, stars and planets.
- 5. Baghdad (n)**- The capital of the Islamic Empire under the Abbasid dynasty.
- 6. Madrasa (n)**- Muslim school or college
- 7. Byzantine Empire (n)**- The Greek-speaking eastern Roman Empire.
- 8. Caliph (n)**- The religious and political leader of an Islamic empire.
- 9. Christendom (n)**- Christian people or countries as a whole.
- 10. Constantinople (n)** - The capital of the eastern Roman Empire.
- 11. Dynasty (n)** a sequence of rulers from the same family.
- 12. Empire (n)**- A group of countries ruled by a single ruler (Emperor / Empress).
- 13. Innovation (n)** the process of improving something or creating something that is a new technology.
- 14. Empire (n)** a group of countries ruled by a single ruler.
- 16. Apothecary (n)** a person who in the past made and sold medicines.
- 17. Monarch (n)** a king or queen
- 18. Inference (n)** a conclusion drawn from evidence based on what is seen and what is already known.

B. Key people:

- 1. Al-Mansur** - The Abbasid caliph from 754-775.
- 2. Al-Masudi** - An Arab geographer (896-956).
- 3. Al-Razi** - A physician in Baghdad who wrote books on medicine (854-925).
- 4. Emperor Constantine** - Roman Emperor who converted the official religion of the Roman Empire to Christianity in 380 CE and created a new capital at Constantinople.
- 5. Empress Zoe** - Byzantine Empress, 1028-1050.
- 6. Euclid** - A Greek mathematician from the 3rd century BCE.
- 7. Galen** - A Greek doctor from the 2nd century CE.
- 8. Ptolemy** - A Greek astronomer from the 2nd century CE.

Power

The control a person or group has in a country.

For example, powerful empires which existed c.1000 held power through emperors, empresses and caliphs.

This includes threads such as warfare and empire.

Identity

The qualities and characteristics that make a person who they are and what they value as important.

For example, religious beliefs such as Buddhism, Islam and Christianity influenced empires and individuals c.1000.

This includes threads such as women and beliefs.

Connectivity

The act of joining or being linked to somewhere, someone or something else.

For example, people, knowledge and beliefs travelled across continents using trade routes, such as the Silk Roads.

This includes threads such as migration, trade, innovation, medicine and knowledge.

C. Keywords:

- 1. Geometry** - Mathematics that deals with points, lines, angles and shapes.
- 2. House of Wisdom** - A place in Baghdad where scholars met to learn and discuss knowledge.
- 3. Madrasa** - A Muslim school or college.
- 4. Monastery** - A community of monks living together.
- 5. Monk** - A man who commits his whole life to God, living in a monastery.
- 6. Mosque** - A Muslim place of worship.
- 7. Pope** - Head of the Roman Catholic Church.
- 8. Pilgrim** - Someone who travels to a holy place.
- 9. Priest** - The person in charge of the church in each parish.
- 10. Relic** - The remains of a saint's body or belongings.
- 11. Saint** - A person recognised as being holy.
- 12. Silk Roads** - The land route used for trade between China, the Middle East, Europe and North Africa.

BC =

Before Christ (any year before the year 0)

AD = Anno

Domini (the year of our lord) - used for any year after 0.

Timeline - a visual display of a list of events in chronological order

Chronology - putting events in time order

Decade - 10 years

Century - 100 years

Millennium - 1000 years

Interpretation - an informed opinion on something

Source - Documents, objects, or other items which are used to learn about the past

Unit 1 Worldviews c. 1000

BC	AD	Timeline -	Chronology	Decade	Century	Millenium	Interpretation	Source

7.01: Religion Locally and Nationally

Key Vocabulary

1	diversity	Differences between a group or setting.
2	Christianity	The religion that Christians follow.
3	Islam	The religion that Muslims follow.
4	Judaism	The religion that Jewish people follow.
5	Hindu Dharma	The religion that Hindus follow.
6	Sikhi	The religion that Sikhs follow.
7	Buddhism	The religion that Buddhists follow.
8	Humanism	A non-religious tradition followed by Humanists .
9	migration	The movement of people from one place to another.
10	persecution	Unfair or cruel treatment over a long period of time because of race, religion or political beliefs.
11	census	An official survey of the people who live in a country.

The Census Data and Key Changes

- | | |
|---|--|
| In 2021, | Between 2001 and 2021, |
| <ul style="list-style-type: none">• More people described themselves as religious than non-religious.• The largest religious group was Christianity, followed by Islam and Hindu Dharma. | <ul style="list-style-type: none">• The number of people choosing to answer the question increased.• The number of people reporting ‘no religion’ increased.• The number of people reporting Muslim, Hindu, Sikh and Buddhist increased.• The number of people reporting Christian decreased. |

Religious and Non-Religious Symbols and Buildings

Follower	Symbol	Building
Christian	 Cross	church
Jewish	 Star of David	synagogue
Muslim	 Crescent Moon	mosque
Hindu	 Aum	mandir
Sikh	 Khanda	gurdwara
Buddhist	 Dharma Wheel	temple
Humanist (non-religious)	 Happy Human	(various)

Tools for Studying Religion

Social sciences are a group of subjects that are interested in how people live together in a society. Social scientists study how people change society and how society changes them.

Social scientists collect data in a range of ways, including surveys like the census, as well as looking at evidence of religion in a community’s buildings.

1	diversity	
2	Christianity	
3	Islam	
4	Judaism	
5	Hindu Dharma	
6	Sikhi	
7	Buddhism	
8	Humanism	
9	migration	
10	persecution	
11	census	

[illegible]

Tools for Studying Religion

In 2021,	Between 2001 and 2021,
1. The number of people who are 65 years of age or older has increased. 2. The number of people who are 18 years of age or younger has decreased. 3. The number of people who are 18 to 64 years of age has increased.	1. The number of people who are 65 years of age or older has increased. 2. The number of people who are 18 years of age or younger has decreased. 3. The number of people who are 18 to 64 years of age has increased.

Y7 Food technology

What we are learning this term:

1. Health, safety and hygiene in the kitchen
2. The Eatwell guide and nutrients
3. Storing food safely
4. Food origins
5. Food fortification and modification
6. Practical skills

A.	What are the nutrients required in the diet?
Carbohydrates	To give the body energy e.g bread.
Protein	To grow and repair the body, and to give energy e.g eggs.
Fats	To insulate your body, give you energy, and protect your organs i.e butter.
Vitamins	For general body health and function i.e carrots for eyesight.
Minerals	For general body health and function i.e iron to make blood cells.

c. Storing food safely

Perishable foods should be stored out of the **temperature danger zone** to reduce the risk of **food poisoning**. Hot foods should be kept above 63°C and cold foods should be kept below 5°C.

Image: TAFE NSW

B. What are the 5 different sections of the Eatwell plate?

- 1 **Fruit and Vegetables** – provides minerals, vitamins & fibre
- 2 **Carbohydrates** – provides carbs and fibre
- 3 **Protein** - provides protein, omega 3, come vitamins
- 4 **Dairy** - provides vitamins, minerals (calcium)
- 5 **Fats and Oils**

E.	Keywords
Food miles	The distance a food has travelled from the producer to consumer.
Cross contamination	The transfer of contaminants onto food through either the hands, the equipment or the surfaces. Causes food poisoning.
Spoilage	When food becomes unsafe to eat i.e rot, mould.
Perishable food	Food that spoils if not kept in the fridge or freezer e.g ham.
Fibre	Foods that keep your digestive system healthy and avoid constipation.
Allergen	A substance (sometimes food) that causes an immune system response that can be fatal i.e throat swelling up. Nuts are common allergens.
Intolerance	When the body cannot digest a food and rejects it i.e vomiting, diarrhea. Many people are lactose intolerant (milk intolerance).
Coeliac	When someone cannot eat gluten (wheat), similar to an intolerance but more dangerous.
Vegan	When someone does not eat anything that comes from an animal including eggs, milk, honey.

c. Food origins

Grown food- plants i.e wheat

Intensive farming – bad for the environment, uses chemical fertilisers and pesticides. Gives a high yield (amount of food).

Organic farming – "natural" farming, is slower and more expensive to do.

Reared food – animals kept on a farm, bred and raised for use i.e cows to give milk

Intensive (battery) farming – animals are kept indoors all year round in small cages, poor treatment. Lots of food produced.

Free range – animals have a large amount of space and outdoor space, good living conditions. Expensive and slow.

Caught food – animals hunted in the wild i.e fish, game animals

Trawling – large nets dragged through the sea, lots of bycatch (unwanted fish) and damages habitats.

Line caught – catching one fish at a time on a fishing line. Much slower and more expensive.

c. Food fortification and modification

Fortify – to make stronger/better

Food fortification – adding extra nutrients to food to improve how nutritious it is
Examples: butter with added vitamins, cereal with added iron and vitamins

Modification – to change the properties of something

Additives – chemicals added to food, can be natural or artificial
Examples – flavourings, colourants, preservatives, stabilisers
Genetically modified (GM) - the genes (DNA) of the crop or animal have been changed to improve their yield i.e more seeds.

Y9 Food technology

What we are learning this term:

1. Health, safety and hygiene in the kitchen
2. The Eatwell guide and nutrients
3. Storing food safely
4. Food origins
5. Food fortification and modification
6. Practical skills

B. What are the 5 different sections of the Eatwell plate?

- 1 F _____ and _____
- 2 C _____ provides _____
- 3 _____
- 4 _____ - provides vitamins, minerals (calcium)
- 5 **Fats and Oils**

Divide the circle below into 5 sections as on the eatwell guide and annotate it with one healthy eating guideline .

A. What are the nutrients required in the diet?

Carbohydrates	To give the body _____ e.g bread.
Protein	To _____ the body, and to give energy e.g eggs.
Fats	To insulate your body, give you _____, and protect your organs i.e butter.
Vitamins	For general body health and function i.e carrots for _____.
Minerals	For general body health and function i.e iron to make _____.

c Storing food safely

Perishable foods should be stored out of the **temperature danger zone** to reduce the risk of _____.
Hot foods should be kept above _____ and cold foods should be kept below _____.

Annotate the thermometer to show key food safety temperatures.

c. Food origins

_____ Food - plants i.e _____	_____ food – animals kept on a farm, bred and raised for use i.e _____	_____ food – animals hunted in the wild i.e _____
_____ farming – bad for the environment, uses chemical fertilisers and pesticides. Gives a high yield (amount of food). Organic farming – "natural" farming, is _____ and more expensive to do.	Intensive (battery) farming – animals are kept indoors all year round in small cages, poor treatment. Lots of _____ produced. Free _____ – animals have a large amount of space and outdoor space, good living conditions. Expensive and slow.	Trawling – large nets _____ through the sea, lots of bycatch (unwanted fish) and damages habitats. Line caught – catching one fish at a time on a fishing line. Much slower and more _____.

E. Keywords

Food miles	The distance a food has _____ from the producer to consumer.
Cross contamination	
	When food becomes unsafe to eat i.e rot, mould.
Perishable food	Food that spoils if not kept in the fridge or freezer e.g ham.
Fibre	
Allergen	
	When the body cannot digest a food and rejects it i.e vomiting, diarrhea. Many people are lactose intolerant (milk intolerance).
Coeliac	When someone cannot eat _____ (wheat), similar to an intolerance but more dangerous.
	When someone does not eat anything that comes from an animal including eggs, milk, honey.

c Influences on food choice

- List 3 influences that might change a person's choice of food:
- 1.
 - 2.
 - 3.

Year 7 PRODUCT DESIGN Rotation Knowledge Organiser

What we are learning this term:				
A. Workshop Tools	B. Materials	C. Modelling	D. Key Words	E. Evaluating Work

A.	Workshop Tools						
Steel Rule	Wooden Vice	Clamp	Bench Hook	Tenon Saw	Pillar Drill	Bandfacer	
							

B.	Materials
Timbers come from trees	
	Scots pine – which you used for your maze frame – is a softwood Softwoods come in planks and boards

Manufactured Boards come from wood pulp	
	Plywood – which you used as your base, insert and maze walls – is a manufactured board Manufactured Boards come in sheets

Polymers come from crude oil	
	Acrylic – which you used as your lid for your maze – is a polymer Polymers come in sheets, graduals and filament

C.	Modelling
Creating a 3D representation of your product before you manufacture it.	

You can use a variety of different materials and computer programs to create a mock up model or prototype such as;

		
Cardboard	Foamboard	Scrap Wood
		
3D Printing	2D Design	Solidworks

Modelling is used to test a product before manufacture, to see what works and what doesn't.

Advantages	Disadvantages
Allows a designer to physically handle or view from all sides	Can be time-consuming and complicated
Changes can be made quickly and easily	Testing can be unreliable as they don't use the same materials as the end product

D.	Key Words
Specification 	A specific list of things that your product should be or do.
Modelling 	A way of making a 3D representations of your proposed design. To see what went well and how it can be improved.
Sustainable 	Limited negative impact on the environment.
Manufacture 	Making a product using tools and machinery.

E.	Evaluation of Products
----	------------------------

Evaluate 	To judge and give an opinion.
--	-------------------------------

Designers will evaluate their products to see what works well and what doesn't. This way they can make any improvements on their current designs to ensure a high-quality product.

- When writing an evaluation it is important to include the following three things:**
1. Positives – what works well
 2. Negatives – what doesn't work well
 3. Possible improvements – how could you make it better?

For example:

My maze looks really fun and challenging to play. However, when tested the model version of my game, it was too difficult to complete. One improvement I could make is by taking away some of the traps or moving some of the walls around, so that it is more fun to play.

Year 7 PRODUCT DESIGN Rotation Knowledge Organiser

What we are learning this term:

A. Workshop Tools B. Materials C. Modelling D. Data Analysis & Evaluation

A. Workshop Tools

B. Materials

Timbers come from _____

Scots pine – which you used for your maze frame – is a **softwood**

Softwoods come in _____ and _____

Manufactured Boards come from _____

Plywood – which you used as your base, insert and maze walls – is a **manufactured board**

Manufactured Boards come in _____

Polymers come from _____

Acrylic – which you used as your lid for your maze – is a **polymer**

Polymers come in _____, _____ and _____

C. Modelling

Creating a _____ before you manufacture it.

You can use a variety of different materials and computer programs to create a mock up model or _____ such as;

Modelling is used to _____ before manufacture, to see what works and what doesn't.

Advantages

Disadvantages

D. Key Words

Specification

Modelling

Sustainable

Manufacture

E. Evaluation of Products

Evaluate

Think back to your completed handheld maze hand game. Evaluate one positive aspect of it, one negative aspect of it and an improvement you would like to have made if you had time.

Possible sentence starters:

- One thing that was successful.....
- One thing that I had issues with was.....
- If I had more time, I could improve this by.....

Year 7 Graphic Communication Rotation Knowledge Organiser

What we are learning this term:

A. Fonts B. Typography C. Key Words D. Alan Fletcher E. The design process

A.		Fonts – appearance and style of text				
Font classifications				Font Styles		
Serif	Serif Examples	Sans Serif	Sans serif Examples	Regular	Bold	Italic
Text style that has small “feet” or lines at the ends of letters	- Times New Roman - Baskerville Old Face	Text style that has no extra lines, clean and simple	- Arial - Comic Sans	ABC “Original”	ABC “Thicker”	<i>ABC</i> “Slanted”

B.		C.	
Typography – how we arrange and use fonts to make text look good and easy to read.		Key Words	
Alignment of text		Graphic Communication	Using images and text to share a message or idea, like posters, logos, or advertisements.
Typography is how we arrange and use fonts to make text look good and easy to read. Font, the style of letters Typography, how we use those fonts together. Picking the right font for the job (link back to serif/sans serif). Space between letters and lines. Too squashed = hard to read. Too spread out = looks odd ↳ Left aligned ↳ Centered aligned ↳ Right aligned		Graphic Design	It is the outcome of graphic design.
		Iterative	Repeating steps again and again to improve the result.
		Design Brief	A design brief is a short description of what you need to design and make. It explains the task and what is required.
		Specification	A list of things your design should do or be.
Line Spacing - Space between letters and lines		Concept Board	A collection of images, colours, fonts, textures, and ideas that inspire your design. 
Motivated Scheduling Coordinator with experience in overseeing the booking of patient appointments and extraneous testing upon discharge from numerous medical departments. experience in overseeing the booking of patient appointments and extraneous testing upon discharge from numerous medical departments. the booking of patient appointments and extraneous testing upon discharge from numerous medical departments.		Initial Designs	Your first ideas for a product or project. They are quick sketches that show different possible solutions before you choose and develop the best one.
Hierarchy - the way text is organised to show what is most important			
Big = titles Medium = headings Small = body text		Can use colour, size and orientation to help make the text stand out more.	

D. Alan Fletcher

Alan Fletcher was a British graphic designer and co-founder of Pentagram, known for his creative use of typography. His work combined words and images in clever ways, inspiring designers to make text both clear and visually exciting.

Year 7 Graphic Communication Rotation Knowledge Organiser

B

Keywords

Pulse

Continuous, regular and steady beats: 'The main beat'

Rhythm

How sounds are grouped together e.g. duration/accent

Duration

The lengths of different sounds (long or short)

Accent >

Gives emphasis to a certain musical beat which is performed more noticeably (louder) than the others

Composing

Writing your own music / rhythms

Rests

No sound / silence in the music

Percussion

Instruments you hit, scrape or shake

D Time Signatures and Counting Beats

A TIME SIGNATURE tells us how many beats (and what type of beats) there are in each BAR of music and is made up of two numbers at the beginning of a piece of music.

Top Number = HOW MANY BEATS

Bottom Number = TYPE OF BEAT

2/4 = TWO CROTCHET beats per BAR

e.g. a MARCH

3/4 = THREE CROTCHET beats per BAR

e.g. a WALTZ

4/4 = FOUR CROTCHET beats per BAR

Bottom Numbers:

2 = Minim 4 = Crotchet 8 = Quaver

BARS AND BARLINES

The rhythm grid below shows basic rhythm values in 4/4 time. You should know the note values and be able to play them. Try using the "Remember it" name and clapping it. This actually helps you understand the beat value.

Basic Rhythm Values in 4/4 time

E

	Beat 1	Beat 2	Beat 3	Beat 4
Technical name SEMI BREVE (4 beats)				
Remember it... Hold for 4 beats				
Technical name Minim (2 beats)				
Remember it... L - ong				
Technical name Crotchet (1 beat)				
Remember it... tea				
Technical name Quavers (1/2 beat)				
Remember it... Cof - fee

What we are learning this term:

- A. You will develop your knowledge and understanding of key performance skills of drama.
- B. How to perform on different stage layouts
- C. Devise your own performance from a popular TV show creating new characters.

A- Key Words for this term

1. Improvisation- create a scene without prior planning or a script.
2. Characterisation – presentation of a fictional character using gesture, posture and stance.
3. Body Language- The conscious and unconscious movements and postures by which attitudes and feelings are communicated
4. Facial Expressions- How someone expresses their emotions using their face.
5. Accent- The way you pronounce certain words, often showing where you are from.
6. Tone- The emotion that you put into your voice.
7. Blocking- Stopping the audience from being able to see / experience what is happening on stage
8. Devising- Creation of an original performance in response to a stimulus.

C- Why is blocking important in drama?

It teaches the actors to be aware of where/what way they are standing on stage and make sure they are always in the audience's sightlines.

B Write the definition for these four stage layouts, where the entrances and exits happen and what (if any) set/scenery can be used.

- 1 **End On-** Audience face one side of the stage.
Numerous entrances and exits. Large scenery and set can be used.
- 2 **Thrust-** Audience in front and around 3 sides. Entrances and exits happen on the main stage and through the audience. Set/Scenery on the main stage only.
- 3 **Traverse-** The audience are around 2 sides. There are 2 entrances and exits. Set can be used but cannot be too high to obstruct sightlines of the audience.
- 4 **In The Round/Arena-** The audience are on every side of the stage. There are entrances and exits around the audience. No large sets can be used.

C- Thinking questions.

1. How am I showing my character?
2. What is my body language?
3. How is it different to my normal?
4. What is my character feeling?
5. Do my facial expressions match this?
6. What is my posture like?
7. How do I walk?
8. What implications are there for blocking?
9. What are the positives for each stage?
10. What are the negatives for each stage?
11. Which stage layout do you like the best? Why?

What we are learning this term:

- You will develop your knowledge and understanding of key performance skills of drama.
- How to perform on different stage layouts
- Devise your own performance from a popular TV show creating new characters.

Key Words for this term

- Improvisation-
- C – presentation of a fictional character using gesture, posture and stance.
- B L - The conscious and unconscious movements and postures by which attitudes and feelings are communicated
- Facial Expressions-
- A - The way you pronounce certain words, often showing where you are from.
- T - The emotion that you put into your voice.
- Blocking-
- D - Creation of an original performance in response to a stimulus.

C- Why is blocking important in drama?

It teaches the to be aware of where/what way they on stage and make sure they are in the audience's

Write the definition for these four stage layouts, where the entrances and exits happen and what (if any) set/scenery can be used.

1 End On-

2 Thrust-

3 Traverse-

4 In The Round/Arena-

Thinking questions.

- How am I showing my character?
- What is my body language?
- How is it different to my normal?
- What is my character feeling?
- Do my facial expressions match this?
- What is my posture like?
- How do I walk?
- What implications are there for blocking?
- What are the positives for each stage?
- What are the negatives for each stage?
- Which stage layout do you like the best? Why?
