

Year 11

Y11 Action: Utilising the knowledge and strengths we have within the workplace, enabling students to further understand where their skills can take them		
PSHE Topics	Events	Outcomes
Self-employment Personal statements and CVS Job hunting/interviews/keeping the job Savings/Insurance/Property ladder Global issues (World Debt) Post 16 options	Work Experience Placement week BP Visit JobFest Marlborough College higher education workshops Spotlight on careers events Girls in STEM University Challenge Cameron Parker Talk Marlborough College Maths Residential Rob Heason Talk	As well as thinking about their long term careers, students are often applying for their first part time role in Y11 and putting all the skills they have learnt in to practice. We continue to discuss savings targets, getting on to the property ladder and general aspiration raising topics with students during this time. This keeps them thinking about the difference between pursuing a high level career vs staying at a lower level role earning minimum wage. As well as using their experience to apply for part time roles, students have the opportunity to apply for a week's work experience placement. Each student will also have a destinations interview to discuss their route to success once they have completed their Y11 studies.
