

Work from Home - Instructions for individual students who are self-isolating/shielding/EBSA

An individual student is self isolating: This may be anything from 1 day to 10 school days in a block.

An individual student is shielding following medical advice: This may be for multiple weeks

Any individual student that is currently experiencing EBSA whilst the Attendance Team work with the student to enable a full return to the Academy.

At KEY STAGE 4:

Students will follow their Academy Timetable. Teachers will set work for every lesson delivered on EPRAISE, using 'Classwork' function. The set date and due date will be set as the date of the actual lesson.

Students need to upload their completed work to their teacher using EPRAISE. Documents can be attached via EPRAISE or students can upload a picture of the work they complete.

Students will be expected to complete all Prep work that is set for them.

KEY STAGE 4 Support: for general support, students are asked to message Mr Nick Warren via Epraise. It is important for students remember that their teachers are busy teaching students in school, so may not be able to answer messages asking for subject support. Students can use the 'I need help with' function on EPRAISE for all other support.
